183  Rompiendo las Carañas.  [*] Deals with recent attacks on anti-Communist radio stations in Guatemala, in direct violation of Article 35 of the Constitution.  Physical attacks on owners and employees are cited, including one who now lives in exile, as a result of the tortures suffered in prison in Guatemala.  Radio Universal, La Voz de las Américas, Radio Cino’s, Radio Continental, and Radio Internacional are all cited.

004  [begins immediately, cuts in. This is the continuation of the Reportando las Cadenas segment on cassette 10.]...da largo fue una propaganda indicada para dicho programa anticomunista,... Speaks of a radio station (apparently called Radio Internaciona) having been jammed in Guatemala. However, the jamming was done with a transmitter that was too small, so the jamming was only effective in the capital city. The jammed station could continue to be heard in the countryside. The radio station protested, and some lame theories of explanation were offered by police authorities which anyone could see were totally false. Finally, 'the intelligence service of the committee of anti-Communist university students, using of high fidelity and chronometric equipment, were able to locate the jamming signal as emanating from the garage of the Civil Guard.' Cruz War then proceeded to threaten the station, saying if they didn't cancel their anti-Communist programming, it would be canceled for them. Such threats were ignored, as the station managers never dreamed they would be implemented. But the whole country saw what happened; the station was the victim of armed assault. This is the kind of liberty Argentina makes such a point of. The police are the biggest thugs and criminals in the country, and they committed the assault.

[In closing this segment, announcer states that although they are at this moment transmitting on 3630 kcs, beginning tomorrow the evening broadcasts will be on 3420 kcs.]

075  Refrain 2.

004  Que Samae y Ande, Vaamos.  [NT] Yesterday we clearly established our symbols: God, Country and Liberty, and the aspirations of Justice, Truth and Work, and spoke generally of the state and the individual. Today we will speak of the importance of capital and work, the economy, land and cooperativism. In our political program which will be implemented after the fall of Arbenz, work will be considered the right of the individual. Strikes of the workers. Capital and work will be protected by the state. There will be an educational campaign denouncing the class struggle concept. Free trade unionsism will be legalized, centralized confederations will be prohibited. Everyone will have the right to medical treatment. Inexpensive housing construction will be encouraged by the state. Quality of life will be raised at all levels. Capital and specialized technical skills will be protected. A new industrial law will be promulgated. Agricultural development will be encouraged and aided by the state. The new system of agrarian reform will not harm larger farms which have proven themselves productive. Land owned by the state will be distributed to families via a system to be carefully worked out. The modern humanized capitalist system is the best system for us. Mandles destroys us. A system creating a large number of landowners without falling into the minifundio trap will be considered. It is not acceptable that the majority lives in poverty, while a few are rich. The mining industry will be encouraged, particularly in the hydrocarbons field.  [Program continues going into considerable detail on the economic and social reforms which will take place after the overthrow of communism]. Tomorrow we will speak of the political reforms to come.

Starting tomorrow, you can hear us on 3420 kcs.

Teaches second verse of La Premiera. [Refrain 2].

201 Nuestra Campaña Popular. [1] Through this series of programs we are not only unmasking the principal communist leaders of Guatemala, but also exposing their diabolic and treacherous machinations...the organized Opposition combats Soviet totalitarian ideas from within Guatemala and other Central American countries...The communist publication Tribuna Popular recently and stupidly referred to anti-Communist students of the republic as "expert conspirators." Nothing could be further from the truth...we have publicly announced our goal is to eradicate communism from our country...through our brethren in El Salvador we have now launched our publication El Combate...this is no conspiracy because we act openly...our crusade is legal and completely popular...they have also called us realists, but none of us is a landowner...as opposed to the Tribuna Popular traitors who have transformed themselves into the possessors of Cadillacs, chalets and luxuries...finally, they call us "yankee-philes" who hope for divine intervention from abroad...this too is false because we have always said that Guatemalan problems must be solved by Guatemalans...total contrast with communists' pandering to Moscow...the Kremlin has opened up a subsidiary just a couple of blocks from the national palace of communist party headquarters...didn't we all see it this past May 1st, when all the red banners dominated the parades and demonstrations?...our patience has ended...Guatemalans! Radio Liberation invites you to be ready for the struggle which is coming, and let us together throw all the traitorous communists out by force, since reasonning has not prevailed...remember what our anthem says, "better dead than enslaved."

It is our duty to tell them the truth... then we will see if they respond to our cause... Russia is interested in Guatemala because it can house strategically placed air bases... from which attacks can be launched against USA and Argentina and others... only two hours to Panama, three hours to the Texas oil fields, these are the bases needed by Russia... imagine Soviet planes dropping atomic bombs on San Diego, Texas or even New York... now can you see why the Soviets are so interested in Guatemala?... We Guatemalans must end all costs this continuing communist penetration... we must save all America... Russia must die in Guatemala... we can wait no longer... the traitors at the head of the government of the degenerate Arbenz have disgraced the concept of liberty and democracy... either the Arbenz government dies, or we die... 220 Misma Campaña Radio. [*] The Guatemalan embassy in Managua is a center for communist subversion...the embassy in Tegucigalpa is another one...it has become a center for meetings of communists where assassinations are planned...the Guatemalan ambassador in Tegucigalpa hosted a meeting of the noted leftist of the Legión del Caribe to make the final arrangements for the murder of Nicaraguan president Somoza...this showed the world that the government of Guatemala is a Moscow satellite, just like Costa Rica, with the two presidents being responsible for the criminal assault on Somoza. A coming youth congress in Central America is just an attempt by the communists to enroll our youth in their movement, and taking the youth of Acolon Catholic away from the Catholic church...the communists already control the labor movement, now they want to steal the youth...we cannot let this happen...we must defend our sacred principles of faith and religion...did you notice police chief Rangel Cruz War's cynicism in carrying our Christian symbols during a Holy Week procession? A coup is being prepared against the government of Guatemala, by the government. Arbenz, MacDonald, Toriello, Cruz War and others have been working for 10 years to overthrow the government they control...their weapons are purchased behind the Iron Curtain - incompetence, embezzlement, rape, injustice, assaults, tortures and treason, among others...it may seem like a joke, but it's true.

Indeed, the expressions of support ring with sincerity, not like those phony allegations of adherence that are so often sent to the traitor Arbenz... (goes on to quote extensively from the pastoral letter, and comment on it). Guatemalans, your support to our highest prelate is the true response of the honorable and conscientious men of our country. It is another blow to the communists' face! Out with communism! La Mujer y la Patria: Unen sones Fomentar Amor al Progreso Comunista. [Music]. This is the first of a new series of programs... many of you no doubt have been tempted to join the communist party, enticed by their promises of honor and favors... listen now to one Latin American woman who fell into the trap. "I'm convinced that there is one sector of humanity for which communism is a plague, and that sector is women... our traditional role is in the home, caring for our houses, for our men, for our children... what can this have to do with going out to assist a bricklayer, to sweep the streets?... well that is exactly what awaits us under communist collectivization... communism was conceived and planned by men with so heart, virtue or honor... they had no concept of real human beings of flesh and bones... they think of numbers, of biological entities, not of men, women and children... Women of Guatemala! Let us fight with all our strength against this treasonous communist intervention in our beloved country. The hour of liberation is not far away! We too will fight with our men to cleanse our country! [Music.]

The development of communism has three stages, first the Marx period, then Lenin, then the World War II communism. Philosophers, politicians and the military, in that order. In the first two stages the communists were anti-military, because the military was an obstacle in their path. Today the militarists run communism, but always behind the veil of peace. They have transformed the military into their instrument. Lack of thinkers, Guatemalan communism omitted the first stage, relying on the foreign masters. Their anti-militarism was manifest when they mass-deported army generals and assassinated their leader. Since then, the small band which ran the army have become a red band. That assassination brought Arbenz to power. That leads us to the next important step in our military evolution, the response of CCA to his calling, which turned out to be the highest order of decoration. CCA will return to that army when it is cleansed of the traitors within it. [Radio Liberation is on the air daily from 1500 to 1400 and from 2000 to 2200.]

Comunismo al Desnudo. [14] The Guatemalan peasant is inexorably linked to the soil he works...the soil moisturized by his sweat is part of his life...he cares for the soil that provides him and his family with the most basic necessities of life...nevertheless, the peasant seldom owns the land he works, mainly because he did not know how to conserve what was passed on to him...today there is uncultivated and unproductive land all over the country, just as there are thousands of peasants who own no land...but the problem is vast, complex, and requiring of great intelligence, good will and love of country to resolve...it has to be recognized that the peasants themselves were in part responsible for their loss of land...many current landowners abused the peasants' ignorance to gain large tracts of land at ridiculous prices...the peasants now are in great danger of succumbing to the propaganda of the communists...some are being seduced...a responsible government will attend to the peasants' ends in an honorable and patriotic way, not by ripping land away from owners who have legitimate right to it and cultivate it effectively, but by distributing the land owned by the state and by owners who do not effectively work and develop their land...fortunately the peasants are beginning to see through the lies of the false.speakers, and they are tired of the brutality which has drenched their soil in blood...the new government will provide the peasants with land in a legitimate way, with rights of inheritance, the new government will institute a new agrarian reform law, just and fair, and will provide all the necessary technical assistance to the new owners...and that new government will need the support of you, the peasants, so be ready for the day which is near. In previous programs in this series, we have discussed the fact that communism is the enemy of all religions... communism is one hundred percent destructive... has no humanitarian aspect and doesn't even know what it is to extend a helping hand... on the other hand, all religions have ministers whose sole objective is to console and help, always inspired by faith... In 1921, the US Congress voted $25 million dollars in relief of the Russian famine, and private Americans sent another $25 million... $50 million which saved 10 million people... proving the goodness of a nation which is great because it was founded on the principle of promoting the common good, and which complied with the Christian ethic of feeding the hungry... then we can compare East Germany and West Germany; the first, under Russian control, suffering hunger, misery and religious persecution; the second, under imperialist mandate... [yes! that's what he says!], achieving a true economic miracle with full freedom of worship... we don't want that kind of "peace" that the Russians preach... we want an authentic peace which is the hallmark of the American nations... Guatemalan! Your collaboration on the day of liberation must be effective! Be ready, and fight against the communists to defend our true rights.

Alway Chaping. Bonampac marimba group, "El Malinche Rojo." We can't be communists because... communism puts party above country. Bonampac, "Danzones en Marimba." We can't be communists because... its only achievement is to have enslaved millions of workers. [Refrain 2.]

Every cornered rat becomes dangerous, and that holds true for the communists. They are now seeing that they are trapped and are going to lose. Now that they are desperate, they will try the most nefarious tricks, and we feel compelled to inform you about them. First there is provocation, an effort to drag people into compromising situations. Be careful of strangers, for instance, who try to coax you into agreeing with anti-government statements. It is probably an entrapment. Always be sure you know well who you are with before expressing your true thoughts. If you want to belong to our movement, don't let yourself be entrapped like this. Then there is the way the communists try to ensnare active groups, or even towns, like the way they blamed this station for the most recent incident in Chiquimula... even though our first broadcast was on May 1st, and the incident occurred on April 30th... watch out for tricks like that... for instance, the government radio could announce there is an insurrection in some town, for the sole purpose of provoking oppositionists into going there to help the rebels... these, of course, are not naive tricks, they are the methods of the Russian secret police... we can't predict all the little tricks the government might come up with... we just want you to resist their provocations.
Program comments on three recent news items:

- Arrest in Nicaragua of well-known international terrorist Jorge Rivas Montes, and his statement regarding his involvement in assassination of Francisco Javier Arana, and what he said about the role of Arevalo and Arbenz.

- Comments of the communist press in Italy and France concerning the Pope's recent appeal against the use of atomic weapons.

- Anti-Communist street rallies in France upon the news of the fall of Dien Bien Phu.

020 Que Somos y Adonde Vamos: [*] We have been analyzing in previous programs how the communist traitors want to abolish our Christian religion...the communist doctrine that science offers a better understanding of the laws of nature and society is like throwing a stone and hiding your hand...this is typical of communism, making a flat statement which appears sensible, but which, after analysis is clearly an attempt at trickery...it is surprising for someone who wants to be a thinker to make such incomplete expressions as Marx did...they deny the existence of miracles, but the thousands of Chinese and North Korean prisoners who denied repatriation, despite never having had exposure to anything but the communist doctrine, is a miracle in itself! How does science explain the sense that exists in humans that enables them to reject trickery? But communism is not a phantom created in the imagination, it is a reality that must be defeated by all the weapons available to those who love liberty, family and country, and respect religion. The science so touted by Marx and the communists can never replace the three theological virtues of faith, hope and charity! [Refrain 3. Refrain 4. Refrain 5. Refrain 6. Refrain 2. ]

"[" As we look at the misery and chaos into which our country is sinking, perhaps we can take solace is noting that it is the communists, it is Arbenz and his gang, who are doing this horrible thing. And in a sense we would be right. But who is really responsible? What can we say of those who stood by and let this happen? Let's face the truth - we are responsible! We totally misjudged Arbenz and the communists, and we let them take power. So what can Guatemalan anti-Communists do now? We know of anti-Communist merchants, industrialists, farmers who actually contribute to the communists' coffers as some sort of insurance in case the communists gain a total victory. We know of public servants who carry out communist orders because they are afraid. We know of many others who keep their mouths shut in the hope that they will be spared. These people are digging their own graves! Yes, we are the responsible ones, and we call on all those who collaborate actively or passively to change their ways before it is too late. We are going to have to even score with the communists, and we want to avoid having to go after collaborators once victory is attained.

La Mujer y el Pueblo, Opiniones Femeninas Ante el Problema Comunista. Many people have asked us how it is that communism, as the bearer of death and destruction, can ever gain power in a country against the will of the majority of its inhabitants. We believe that you, as women and as voters, should know how a small group of communists can gain power, when the voters are not alert, through sheer trickery and hypocrisy. Communism is international, and has members in all countries. They are not all Russians, in Peru they are Peruvian, etc. The day they enter the party, they renounce their country and cast all their loyalty to communism. To take power in a country, they start by forming a Popular Front [explains how this is done]. Then they gain control of the police, which they then convert into a secret police organization. The final step is the liquidation of the opposition leaders by using the police that they now control. Once this is done, they can come out from cover and form their party openly.

[A tape is then played wherein the familiar voice of one of the Radio Liberation announcers comes on and reports that he is standing "at a strategic point somewhere on 6th Avenue South," observing the parade. Crowd noise (sounds more like a cocktail party) is heard in the background. Sounds of trucks parading by are also heard. Announcer comments on what he "observes," focusing on communist control and on fact that most people there were forced to come or lose their jobs. Uses each poster or banner "seen" as pretext for commentary on the subject. At Counter 227, the announcer cuts back to the studio for a musical interlude, then at 242 he comes back on for more commentary. 220 **Newsreel Campana Radical** [**†**] The communists use all kinds of trickery and deceit to conceal their actions... they even seem ashamed of their own party because they call it the Workers Party (PGT)... even in Russia only 3% of the population is in the party... it is an elite which relies on using other organizations to gain total control of the masses... that's why it is important to learn to distinguish between honest organizations, and those that mainly serve the communists... the leftist, "front" organizations have some things in common: they change their line when the communist line changes, they are affiliated with some umbrella organization controlled by Moscow, they always have propaganda funds and never reveal the source of those funds, among their leaders you can always find some who have held similar posts in other organizations of the same ilk... a good example of all this are the "pro-peace" organizations... they try to monopolize peace as if they were the only ones in favor of it... but they exploit this omnipresent desire for peace with seemingly unlimited funds for propaganda activities...[goes on to provide clues on how such communist organizations can be identified]... in our struggle we must bear in mind not just the open Communists, but the rest of the iceberg beneath the surface, those hiding behind another name... we urge all Guatemalans to do all possible to expose all those who work for communism behind the mask of some other organization or purpose. We must all work to cleanse these traitors from the ranks of our government... strengthen yourselves while we await the great day... remain patient... the panic of the communists is clearly visible as they realize their end is near... wait with faith and hope, we will triumph behind our symbols God, Fatherland and Liberty!

The Honduran Foreign Minister has confirmed the charge of SecState John Foster Dulles that the government of Guatemala is involved in the Honduran banana workers strike, and has said that the recent expulsion of three Guatemalan Consuls was due to their active participation in that strike. The Guatemalan communist press, as usual, insulted Mr. Dulles when reporting his remarks, calling him a liar. Now Honduras has confirmed Mr. Dulles' statement and it turns out that, as usual, the liars are the communists. [Musical break.]

The persecution of Catholic bishops and priests behind the Iron Curtain continues. The Roman press has reported the death of a priest in a Lithuanian prison, the expulsion of Catholic missionaries in China, the arrest of all Catholic bishops in Romania, the fact that Bulgaria is down to one bishop for the whole country [goes on to cite other such instances]. Many of you may have thought the same about Radio Liberation... talk, talk, talk, but no action. But don't lose faith, my friends, because the hour is near and there is going to be some great opera. Have you ever thought how much it needs for a movement like this? Just like in an opera, everyone has a role, everyone. Even those who don't sing, like the costumers, have to know their roles perfectly. The Guatemalan opposition also must be perfectly organized. Every one of us must know what her role will be. If you have any doubt about yours, ask someone of confidence and talk about it. And our broadcasts will be giving you instructions and notices, which is why we ask you to be sure to listen every day, from one to two, and eight to ten. The Fatherland is in danger, help us to save it. [Musical break.] We've spoken before about how the communists use trickery to enlist us in their ranks. A recent instance was the creation of the Infant Protection movement. This came about after the communists decided their worldwide recruitment efforts had failed with us women. They thought that by hiding behind this noble concept of infant protection, they could lure us into their ranks. That is why we must always be alert to their trickery. In the end, they always misjudge us. In this case they forgot how much we love our children, and how we will never let our children become spies against their families, as they are in Russia. Marx said religion and science are diametrically opposed, mutually exclusive. This is a false assertion [goes on to present the philosophical arguments on why this is the case]. The communists have one final objective - demolish religion, demolish the main pillar of support for the human soul. Should we just ignore this effort? No. Communism should be combated in every place and in any every way. Only with their defeat can there be progress and peace. [Goes on to describe how communists are false followers of Marx doctrine, that doctrine holds that religion is the opium of the people, and how communist leaders and captains never express an original thought of their own, only repeat the doctrine, much of which even they don't understand.] Will we opt for religion or for communism? (*) Today we would like to help you understand how communism harms your children, and to show you a few ways to help protect them from this destructive force. One of the communists' principal objectives is to separate children from their mothers, because only then can they fully indoctrinate the child and convert him into a blindly obedient communist before he has the capacity for independent thought. One of the most glaring examples of this was a 12-year-old Russian peasant's son who was duly indoctrinated, then reported his father for "hoarding" enough food to feed his family over the winter. For this, the father was executed, and the son declared a hero. When a woman comes to realize the consequences of communist indoctrination of children, her duty becomes quite clear. [Refrain 66. 238 Attention Guatemalans! Important Notice! We have just received a bulletin from the Liberation Committee of Active Duty Military Officers: President Arbenz has declined to respond to our letter of yesterday in which we asked him to disassociate himself from the communist conspiracy and from the nefarious act of introducing Soviet weapons into our country. Through his silence, Arbenz has identified himself as a member and instrument of the communist conspiracy and has betrayed his duty to the Constitution whose Article 32 specifically prohibits the existence of foreign parties in Guatemala. Arbenz is no longer our chief! He is a usurper! An agent of the Kremlin. Brother officers and members of the Armed Forces, remain united for the well-being of our fatherland! Be alert for new messages, the hour of action is coming quickly.

284 We know for certain that the shipment of arms which entered our country through Puerto Barrios in recent days is being distributed among peasants and foreigners associated with the Caribbean Legion. This is another step at the army, as it shows that the lack of confidence in the armed forces is growing. This time there is a groundswell of discontent among officers, because the entire operation has been conducted behind their back. The army has had no role in this distribution, even though it is their responsibility. But the bright side is that many of those weapons will be used to bring freedom back to Guatemala, because many of those they think are members of the popular militias are actually firm anti-Communists and Christians who have learned to be quiet and wait. We'll find them with their own weapons and in their own cause!

The strong government reaction was caused by their great fear of an invasion. The local garrison commander mistook the gathering peasants for invaders, and ordered that they be fired upon.

Casa Sorros y Adolfo Varela. The Army in the Face of the National Problem. Had it not been for the ineffectiveness of the Ministry of Defense for the last 10 years, the Army could have tackled and largely solved some of our country’s most pressing problems. One of these is illiteracy. The Army has had a magnificent opportunity, through the enlistment process, of teaching thousands of citizens, not only to read and write, but to assume responsibility and duties. But Jacobo Arbenz and Jose Angel Sanchez have been ineffectual Ministers, driven by pure inertia. The Army Under the Red Guillotine. To be anti-Communist is a serious matter...it is not just a matter of being negative, it is not just to not be a communist, it is to be profoundly contrary to everything communist. A communist is materialistic, atheistic, cold, a slave, stubborn, denies the sovereignty of God, believes the republic of the proletariat is the Messiah, focuses his aspirations on the class struggle, places the state above all men, negative. An anti-Communist is spiritualistic, a believer, a flame in the breeze, free, driven by justice tempered by charity, proclaims God's sovereignty, believes Christ is the only redeemer, seeks harmony among classes, believes the family to be the basis of society, affirmative. All our country's pain, anger and bitterness is soon to be converted in glory, joy and national rejoicing. Even the men of the government know this is to happen, and are busily preparing the fruits of their rape of the nation to take them elsewhere and enjoy them in a more favorable climate. [As the two announcers who alternate in the reading of this script are attacking Arbenz, Fortune, Cruz War and others, at Counter Point 098 a loud noise, like a door slamming, is heard in the background. Then there are many loud voices in the background, some of children, all agitated. The announcers are agitated, and one sounds out of breath as he returns to read his portion. Then there is another loud noise similar to the other, the voices rise, there is a loud scream, and the recording abruptly stops at Counter Point 111.]

Many of these instructions have already been carried out, therefore it is more urgent than ever to cleanse our country of these communists, before it is too late. 018 *Nuestra Campana Radical.* [*] The National Army and the Popular Militias. At this moment, when the arms recently imported from the Iron Curtain are being distributed, not to the Army but to the communist shock troops, in other words the popular militias, we want to pass on this alert to the armed institution. In a constitutional democracy, an army cannot be sectarian, "revolutionary" or "liberal," defender of some and abuser of others; it defends the country, sustains the constitution, and serves the people. In contrast to that legal establishment, there is an armed organization that represents a social class, and sustains a political and sectarian creed; it is the popular militia. The militia is antidemocratic, antidemocratic; criminal and treasonous. Such substantially different armed institutions cannot coexist. The popular militia, receiving the recently imported arms, arms brought in to unleash a civil war. If the agrarian hordes could do so much damage armed with just machetes, we can only imagine the carnage that will follow when the militias are armed with machine guns. The Army, 75% anti-Communist, will be eradicated by the communist shock troops if it does not move decisively. But what action can an apolitical and non-deliberative body like an Army take? The path is clear, the action legal, the purpose patriotic. The Army who discovers the enemy need not deliberate, to inquire of ideology; instead, he must fire to defend his post, he attacks so as not to be defeated. 043 Comunismo al Cienfuego. [*] We have just been informed by our observation agents, confirming our previous report, that the Alfaro arms, are for delivery to the communist shock troops and for Cruz Wiener's Civil Guard, and not to the army. Here are the facts. On 30 April, two Cominform agents, using the false names Anton Refregier and Alex Zula and false American passports, entered the country and were received by Jaime Diaz Rozotto. They told Rozotto they had come to supervise the unloading of the arms coming from Poland and their distribution, and that they would instruct the shock troops and some police officials in their use. Now that they are being so distributed, their has been outrage among many army officers who currently are planning countermeasures. We hope this record puts an end to the nefarious activities of the two foreign communist agents, and we suppose they will be severely punished by their Soviet bosses for having indirectly spoken too much at the Guerrill in their case, where they were staying. We also want to apologize to all our observers and reporters for not always broadcasting their reports, but this is necessary so the traitors will not realize how well-informed we are. But please be assured that every report is carefully studied. [Music.]

Two weeks ago Arbenz was informed by his advisors of the negative reaction by almost all Latin American countries to his aggressive communist agenda, with the result that Mexican oil shipments would be suspended, and two diplomats would be expelled from Honduras (these two events have, of course, now occurred). But there was also good news for Arbenz in the meeting; the Soviet government continues to support him, and several regional communist parties, including those of Mexico and Brazil, are prepared to come to the aid of his government if requested. We know that the government, increasingly panicked, is planning a series of provocations to force the opposition's hand. So, as the hour of liberation nears, we ask all of you to be careful and discreet, and beware of government provocations and agents.

    on honor and patriotism, but on terror. Horrible punishments, including forced labor in Siberia,
    are handed out not only to soldiers but to their families for the slightest violation of rules. Even
    having an opinion that is not perfectly in line with party doctrine can draw such a punishment.
    This frightening system is maintained not only through military channels, but also through an
    elaborate network of political espionage. Every military unit has its spy who reports to his
    military superiors, but to the secret police. Nevertheless, the desertion rate among Russian
    soldiers is much higher than anywhere else, even in peacetime when escaping is more difficult
    than it was during WWII when thousands crossed over to the Germans. Those who flee today
    are not really deserters, since they are moved by serving a higher cause, and join with their
    comrades in exile to fight the communist oppression at home. Our own army is in the process of

Ques Somos y Adonde Vamos. [*] Yesterday [Cassette #99?] on this program we were talking about the Social Security Institute. Today we will deal with an equally important subject, the Labor Code [which makes this the day before Cassette #152]. Arbez and the communist party convinced the Labor Code into a political weapon to serve their interests, to the detriment of the workers' interests. The formation of the Confederación Única de Trabajadores was one result, the labor central totally controlled by the communists. Written by the communist leader Víctor Manuel Guzmán, the Labor Code allowed workers to strike, with full benefits, for any capricious reason. The communists abuse of this system, with constant work stoppages, has led to severe capital flight. They are using the code to destroy the middle class and its industries because these industries are inconvenient for the communists. Our movement is not against the Labor Code, but against its manipulation by the communists. We support the gains of the proletariat, and will crystallize them under the rule of law that we will implant. Our labor code will protect the rights of both capital and labor, and will create a climate in which all can live. Not like today, where only the communists benefit. We will eliminate the labor central, and allow as many unions as necessary to operate freely. Only in Russia and Guatemala does one find one sole central. And related to the Labor Code issue, we have the issue of "syndicalization," which we will discuss on the next episode of this program tomorrow.

The main peasant organization, the CNCG, is controlled through Leonardo Castillo Flores. Alfonso Solorzano Fernandez does the same in the Social Security Institute. But it is important to remember that Communist labor leaders have seldom ever been workers. Marx, for instance, was a Jew, philosopher and writer, but not a worker. Engels was a businessman, Lenin the descendant of aristocrats, and Stalin a theologian before becoming a professional revolutionary. The point is none ever identified with worker needs, but rather saw the workers as a political tool. Proof of this is that the communist party is for the elite of the vanguard only, and one will see very few workers, real workers, as party members. Workers, beware the sinister plans of the communists to use you for their own ends. Join the great liberation movement to rid our country of the communist plague.

241 "La Mujer y la Patria: Opiniones Femininas Ante el Problema Comunista. [22] Today we have excellent news for you, and for your brothers and sons who are fighting against the communists - the object failure of Minister Torello in Caracas. His inability to implement Moscow's agenda at the Conference has left him wanting in their eyes, and it is rumored that Moscow is pressuring Artime to remove him. His orders had been to establish a communist base among the countries attending the meeting, but all his proposals were roundly rejected by the conference. All the nations came together in a resolution to censure Torello's maneuvers, and warn Soviet Russia to desist from its aggressive methods against the other nations of the hemisphere. So Torello was disgraced, and the communists suffered a huge defeat.

015 **Muestra Campana Radiica.** [*] The communists are even ashamed of their name, they've changed it from Communist Party to Guatemalan Labor Party (PST), to pretend to be an honest, patriotic, Guatemalan party directed from abroad. However, this is nothing but a front for the Soviets, one of the 70 or so international branches of the international communist conspiracy, directed from Moscow, funded from Moscow. Until two years ago Cuba was the general headquarters for the communists in Latin America, but now it has been supplanted by Guatemala. A sign of the importance of this is the recent formation by the Panamanian communist party of a Society of Friends of Guatemala, which follow the communist blueprint used around the world. Further evidence of the communist infiltration is the Youth Festival scheduled for Guatemala next September, another communist hallmark. These communist penetrations must be resisted. Do not enter any of the communist organizations, don't buy their publications, do not go to their rallies, and resist their lies. Be careful of provocations - do not participate in an individual act of violence. We need democratic discipline. Be alert and await our instructions, you are one of us! You are part of the glorious army of liberation that will free Guatemala from the communists clutches! For every honorable Guatemalan who has been wronged, tortured, humiliated, tortured and torn from his home, we will claim the lives of five communists. We will destroy them all with their own weapons.

157 The next program will be Miscelanea Musical del Aire - political jokes. 038 Remordido las Cadenas. [*] There is no doubt that the history of the Guatemalan worker has been a spotty one, and he has undergone very difficult, even cruel, periods. That in itself made the worker somewhat vulnerable to the preaching of the communists who flooded his ranks with reams of propaganda through the most modern methods of social penetration. Initially, many workers fell prey to this evil seduction, and as time passed more and more began to see the falsity of it all, and began the return to the sacred principles of old - God, Fatherland, Liberty. Our workers have always been noble of heart, and have always risen to defend the Fatherland. And, thank God, they are seeing through that communist barrage and are understanding that social vengeance does not equate to social justice. We applaud their return to the old values, we applaud their faith and their courage.

Cue Someo y Adonde Vanos [*] As we said yesterday in commenting on the Labor Code, the communists put all labor organizations in this country under one federation, controlled by them, a political instrument of the Kremlin. Article 62 of the Constitution provides that the state will regulate and inspect business enterprises. In Guatemala, the state is the communist party. And if the enterprises do not toe the state's line, they are immediately hit by labor strikes promulgated by the same communist party through its labor confederation. The Constitution also bars foreigners from involvement in the labor movement, but the Abaranz regime violates this just by having the labor confederation depend on advisors sent by Moscow. The confederation also controls teachers' unions, which means that only communists are certified as teachers and our children are learning about communist history but their grades are going down in the basic school subjects. Our movement stands for free trade unionism and against dictatorial leadership. We are against political intervention by the unions, especially communist intervention. We will truly reform the Labor Code to make it a truly Guatemalan, not Russian, document. [Music:]

As we announced during yesterday's program, at this time we present the voice of Carlos Castillo Armas, chief of the opposition, by means of a special tape sent to our studios. [Military music introduction.] [Fairly extensive biography of Castillo Armas is given.] And now we present Castillo Armas delivering a vitriolic manifesto to the Guatemalan army. First words: "Compañeros, el Congreso de la República con fecha primero de febrero en curso, escrito el decreto..." [This is same speech as on Cassette #85.] Final words: "que no han logrado pisotear Arbenz y sus socios, de nuestro amigo que os quiere y os amosa. CCA." [Military music.]

[Radio Liberty] This is Radio Liberation with a special program dedicated to the Guatemalan army. A script is read with martial music background describing the virtues of the “Sentry of the Nation,” but the sentry appears to have become perfidious for it does not act in the nation’s hour of need. It stands by idly and watches the communists rape the country. However, the vast majority of its members are fine patriots, who have only been deceived by the top leaders who have made their pact with the communists. These honorable and loyal sectors see what is going on, and understand the consequences, but they are hidebound by an exaggerated sense of obedience. Will they stand by and permit the continued disruption of the social order? the continued threat to the national dignity and independence? the continued smashing of our sovereignty? These grave questions must be answered by the worthy officer, the patriotic soldiers. And they must do so quickly, before it is too late. [Goes on with further patriotic exhortations to the military.]

[A woman announcer comes forth with further exhortations to the military.]

049 As we announced during this afternoon's program, we will now bring you a tape-recording of a vibrant manifesto from Col. Carlos Castillo Armas to the people of Guatemala. Communismo al Desnudo. [\*] Communist propaganda leaflets recently made another appearance, again under cover of darkness, under the doors of Guatemalans. These leaflets ignorantly grouped all anti-Communists into one amorphous group with seven characteristics. Now we are going to go over those characteristics one by one, and see whether they characterize anti-Communists, or the communists themselves. [Then cites the seven points, and shows how the communists are guilty of them, not the anti-Communists:]

- sedition of the country to foreign companies,
- elimination of democratic liberties,
- illegitimate use of religion for religious purposes,
- placing Guatemalan youth and territory at the service of yankee monopolistic war plans, "...and tomorrow we will finish up with the other points.

Le Mujor y la Patria: Opiniones Fermosas Apro la Problema Comunista. [\*] in this program I want to specially address the wives of peasants, and anyone who can pass the word on to them. Due to the difficult times the Arbenz government is experiencing, they are making extra efforts to get the people to join the communist party, and this in turn creates the need for caution. They plan to use terror to force the people into a United Front. One method they are using is to give sick cattle to peasant who have already accepted parcels of land. Therefore peasant should be very wary of accepting any cattle distributed by the National Agrarian Department (DAN), because this sickness is very contagious and fatal for both animals and people, and their milk can be fatal for children. They are also distributing inferior seed which will require double work and produce less. As peasants are accepting farms from the government, once their cattle die and crops fail, the government will use this as a pretext to confiscate their lands and distribute them to the communist party. The peasants then will be allowed to live on them only as tenants, with the fruit of their labor going in fees and taxes to the government. This is how the DAN plans to begin the collectivization which has caused so much misery in the world. That's why we advise peasants not to sign any government papers. [Music.]

016 Nuestra Campaña Radical. [*] Communal infiltration of our country, which began in late 1944, gained momentum in March 1946 when Arevalo took the presidency. Since then, Arevalo, and then Arbenz, have worked tirelessly in facilitating the communal agenda. One of the most obvious moves was Arevalo's acceptance of, and generous support of, a band of Spanish communists representing an absurd and imaginary Spanish government in exile. That band had the run of our country, and that event, and many others, led to the formation of small groups determined to rid our country of communism. The years went by and these noble groups fought, but without the cohesion necessary to achieve success. Then Colonel Carlos Castillo Armas carried out his raid on the base at La Aurora. This heroic act, in which he was severely wounded, coupled with his cruel treatment at the hands of his captors, his dramatic escape, and then his total dedication to the cause of liberation, catapulted him into the position of natural leader of all opposition forces. Thus all these forces came together under the symbols God, Fatherland and Liberty, and the aspirations Justice, Truth and Work, including the exile groups CELIGAU, FAGE and CEGAM. The personality of Castillo Armas, and the vibrant manifestos he has issued, and these we have brought to you via recorded tapes, have jettied into an opposition which, following the Plan of Tegucigalpa of last December, is ready and able to bring and end to the rule of the suspect Arbenz in the very near future. No one can stop this anti-Communist avalanche. [Music.]

153 Attention, Guatemala! Last Wednesday night some of our planes reached the capital and dropped the messages that Radio Libertad had told you were coming. [Goes on to detail instances in which the Arbenz government has derailed efforts at continental or regional solidarity, starting with the formation of ODECA, and then OAS votes and the Caracas Conference.  Describes how communism improved on Goebbels' "big lie" technique to achieve its ends, but this is a double-edged sword that frequently backfires, as it did when the communists tried to accuse UN troops of using germ warfare in Korea.  This is why the opposition's tactic is to provide only the truth.  Somehow manages to progress into the "32" campaign, and the illegal imprisonments and kidnappings by the police.]

230  [Refrain 72, Refrain 69, Refrain 70, Refrain 74, Refrain 72.]

256  Que Somos y A donde Vamos.  [*]  Cooperative organizations work in favor of the workers by enhancing their standard of living, and our government is constitutionally obligated to direct our economy so as to achieve just that.  However, the communists are not really interested in this, because their strategy for increasing their ranks is to create misery, not prosperity.  The communist-run government is not interested in fomenting cooperativism, but rather in unconditional servitude to the plans for the sovietization of Guatemala.  The communist tactic is to create complete misery so that the desperate workers then turn to the communist party and look for the socialist paradise which Moscow promises will come once they achieve total power.  Fortunately Guatemalans, anti-Communist in their immense majority, see through this strategy.  But while Arbenz remains in power, Guatemalans cannot even hope for any economic improvement because that would be against Moscow's orders.  We are not supporters of having a capitalist regime, as we consider that to be a system in decline.  We believe the world will evolve toward a more fair and human condition which will favor the greatest number.  If we were asked what we are and where we are headed, we would respond that we are with neither communism nor inhuman capitalism, that we aspire to an economic democratic cooperativism.  In accordance with our movement's postulates, we will orient the economy toward benefiting the greatest number.  We will organize Guatemala into being strongly productive, raising the standard of living of all social classes, especially the workers, and attracting domestic and foreign capital and technical assistance from the UN to develop new sources of wealth.  [Music.]

016  Acusamos de Año Tragedia. [*][The script provides only the opening of this segment.] Good evening. [Goes into a long, rambling, emotional homage to the Guatemalan flag, so heinously dismembered by Arbenz and his gang who have replaced it with a dirty red cloth, with multiple accusations of high treason. Stirring musical background.]

205  La Noticia Alquimia de Radio Liberacion:

- Nicaraguan president Somoto has proposed an interamerican conference to discuss the evidence of a vast communist plan in Central America to subvert the region.
- Brazilian senator has charged that Guatemala has become a Soviet military base in Central America, threatening the security of the continent.
- The pilots of the planes who bravely flew over the capital and dropped messages from Radio Liberation have been the subject of laudatory comments across the nation. The pilots, who until recently were members of the Guatemalan Air Force, were close friends of Air Force Chief Col. Giron. Giron refuses to give their names to the Army High Command. We thank Col. Giron for his valuable collaboration.
- The government has delayed the arrival of Russian diplomats whom we said publicly would be arriving on a commercial mission. Our bulletin on this ran like wildfire across the country, and the government was forced to delay the arrival. We will advise the date for which the visit is rescheduled.
- The bulletin we put out recently about the arrival of faulty weaponry from Europe has been confirmed. The defective rifles that inflicted such harm on Korean and Chinese soldiers may well be the same to our peasants to whom they are being distributed.
- The republic lacks the funds to pay for the enormous arms shipment that arrived on the Aurora. This is not important because the Russians did not sell them, but they to their first military base in America. But government officials, eager to line their pockets, are already preparing plans to tax liquor, cigarettes and coffee to pay this enormous debt.
- Commercial pilots have complained that the anti-aircraft weapons of La Aurora airport point at them threateningly ever time they land there, making them very nervous. This has happened because a squadron of planes evaded the Guatemalan defense to drop leaflets from the anti-Communist opposition movement all over the capital.

Comunismo de Oeste. Once a Comic, Always a Comic. Many years ago a comical production for the benefit of the poor was put on at the Lux Theater called "The Fifteen Million," starring one Guillermo Toriella, also known as "Willy." Later, in 1946, the comedian attended the San Francisco Conference sponsored by the Revolution of October, not yet contaminated by the red virus, apparently. He later was the personal courier of a message from the newly-secreted president, Arevalo to the Russian ambassador in Mexico. And recently was the chief Guatemalan delegate to the Caracas Interamerican Conference. Once again Toriella had the opportunity to be the comic, and once again in a benefit performance. But this time the beneficiaries were not the poor, but the gang that has delivered our country bound hand and foot to international communism. Toriella could afford to play David against Goliath at Caracas, because democracy reigns in America, and the US was not about to eat him alive. After all, they like ham and bacon, but from healthy pigs.

Free Trade Unionism Against the Red Threat. Just as there can be no democracy without free trade unionism, there can be no free trade unionism without democracy. Totalitarianism calls for the total destruction of free trade unions. Under communism, unions are only instruments of the dictators that make an effort to serve the interests of the people. In Russia they are used as a means to coerce the workers. Under totalitarianism the rights to strike, to collective negotiations, to changes of employment, to protest against reductions, disappear entirely. [Music.]

La Mañanita. Contemporary Figures and Problems. ['] Arevalo has been living the life of a schizophrenic, declaring publicly that his government is not communist, while all the insiders have known all along that the government is controlled by Russia. After the embarrassment of the Caracas conference, Russia ordered that the communists step to the forefront, and let Arevalo be branded a traitor. So it was that Fortuny declared that the Communist Party constituted the real power in Guatemala. Around the world, communist parties said the same and called for support to the Guatemalan Communists, all of which puts Arevalo in a difficult situation. Meanwhile, it appears that Khrushchev and Molotov are getting ready to dump Malankov, so Fortuny and Gutiérrez don't know whose orders to follow. All of which leaves Arevalo very much alone and isolated. Neither the communists nor the Army, after the clandestine arms shipment was uncovered, support him. Rumors are running that every day he feels mentally less stable. Our complete faith in the triumph of justice and freedom is about to be rewarded. [Music.]

La Notícia Amplia da Radio [removed].

— Archbishop Roselló Azellana has told a reporter that relations between the church and the government are totally broken. His comments have been published in the most important papers of the Americas, receiving the most favorable of comments.

— Guatemalan communists, directed from abroad, have been little by little cornering the traitor Jacobo Arbenz, putting him in a political situation in which he will become increasingly dependent on them. He is virtually the hostage of the triumvirate of José Manuel Fortuny, Victor Manuel Gutierrez and Carlos Manuel Pellerci. They're the ones who forced him to issue his ridiculous warning about an invasion from abroad. They are the ones who engineered the importation of arms from Russia. Having seized this control, the communists have also taken the reins of the foreign propaganda machine. Their instrument in this cause is the puppet foreign minister, Guillermo Torrelio. The communist government of the traitor Arbenz threatens the peace and tranquility of all America.

— The cynical Torrelio told the foreign press that it is untrue the government is expecting more arms from abroad. But at the very time this bit of news was being published, the Panama Canal Zone and US Navy authorities unloaded a French ship that was indeed bringing more arms to Guatemala.

— Again the Honduran foreign minister has made clear the involvement of Guatemala in the labor strike affecting his country.

— Torrelio continues his Soviet-style lying, but nobody believes the cynical traitor's lies. As is known, the Haitian government has declared the Guatemalan charge d'affaires in Haiti persona non grata and expelled him, but Torrelio insisted on saying that the man was just returning to Guatemala on a personal visit.

— The former president of Costa Rica has warned current president José Figueres not to let the country join a bloc with Guatemala in opposition to the Central American bloc, as that would be against the wishes of the people. Figueres has not responded, and not denied his intent to do just that.

— Carlos Salazar, leader of Guatemalans in exile in Mexico, provided documentary evidence of the communist penetration of Guatemala to the anti-Communist Congress being held in Mexico City.

— A high level source in the government has informed us that the Arbenz gang is preparing a simulated military coup so as to be able to accuse foreign countries of interfering in our domestic affairs. An effort is underway to cache arms, with markings of a friendly foreign country, so as to be able to later accuse it of having smuggled those arms in. But by now all America knows how the Reds specialize in developing this false coups.

— As a further part of their overall plan, the government has sent its thugs to take advantage of the recent attempt against the train that carried the red arms from Puerto Barrios. The plan is for them to place explosives on the tracks to blow up passenger trains in a traitorous and criminal act. We declare emphatically that we have nothing to do with this, that we have not and will not attack passenger trains in any way. Our only target are military and communist ones. Muestra Campaña Radio. Every day the government of Arbenz becomes more desperate, depending ever more on the brutality of Cruz Ver and his police. We have seen so many recent examples, the treatment of the Salama prisoners, the assault on Radio Internacional, the persecution of those who paint the "32" slogan, etc. The police will become even more brutal. To hide those who might be victimized in coming days, we offer some guidance: you have every right to ignore the government's censorship, but when you read banned newspapers, do it alone, pass them anonymously, putting them under doors, leaving them in public places, speak of what you read, but don't say where you read it. Don't hold on to these papers but circulate them secretly. Don't have political discussions with strangers. Be careful of what you say on the telephone and what you write in letters. Government agents monitor these communications. If they try to arrest you, demand to see the arrest warrant. If they don't have one, make every effort to escape. If you fail, draw attention by screaming. Make sure your family and friends know they should get a lawyer if you are arrested. And they should alert the independent press, say nothing without talking to your lawyer first. Be careful of tricks when they are interrogating you. Always have a plausible explanation for anything you really may have done. For instance, if you transported banned propaganda materials, have a story ready with innocent reasons for having taken that trip. The day of liberation is coming. Have patience and hope. 100  ROMULO YLAS CAJALDO: [*] Arevalo was responsible for opening the doors of Guatemala to international communism. Arbenz is responsible for having continued that treasonous activity... both are responsible for the tragedy, both material and spiritual, which afflicts Guatemala today... in today's program we will refer to the spiritual aspect... Archbishop Rosell y Arellano has been the subject of much consternation in the councils of government... they are undecided as to what to do about him, although the threat of expulsion from the country is alive... the ladies of the marketplace, aware of the danger to him, have surrounded his palace with a human protective wall... his much-hated radio transmitter was shut down by the government... the contract through which his program ranled time on the official station TGW was abruptly canceled by the government, and the time slot given to the communists... in late January a cleric was arrested and tortured by the infamous Cruz Ver's Civil Guard, and deported to Honduras, and his tiny radio station closed down... last year the archbishop was visited in the congress of the nation... Arbenz-communism has systematically harassed the Sisters of Charity... there are hundreds of such examples of oppression... and the antipatriot and renegade communists continue to plot the expulsion of Rosell y Arellano... this is a warning call to all of us... if we want to retain our faith, we must fight, we must break the chains of slavery! [Repeat B. Repeat 2.]

200  QUIS SABRIA Y ADORA VENTO: [*] The Arbenz government has just proposed a non-aggression pact to the government of Honduras... what coincidence!... this step was taken on direct orders from the Kremlin, according to our sources... just another political maneuver by a cynical regime... part of the Soviet plan to take over Central America... having already established themselves in our country, the Soviets now seek to rope Honduras into the conspiracy... after all, there is already in effect a non-aggression pact with Honduras dating back to 1933, why is a new one necessary?... because Honduras is the next step in the red Politburo's scheme... the communists have been using Guatemala to penetrate Honduras... sending communists there with false passports to organize workers and peasants... hardworking, these workers caused trouble and struck... the Honduran government expelled three Guatemalan consuls who were involved... it took other measures and gained control of the situation... the Guatemalan communist scheme failed... then, and only then did Arbenz cynically proffer the idea of a non-aggression pact, only after the Honduran ambassador had been recalled, only after Honduras received an arms shipment from the US... the Hondurans are not naive; they fully understand the tactics of the Arbenz government and the reasoning behind the peace proposal. Los Acusamos de Alta Traición. Fatherland and Antifatherland. All men are the children of two mothers; one who gives him birth, the other who gives him the ample breast of the land in which our spirit was forged (sic)...who doesn't love his mother, who doesn't love his Fatherland?... unfortunately there are deformities of souls... there are children who turn their back on their mother, and renegade children who deny their Fatherland...communism has created the antifatherland... antifatherland is a nest of snakes, pack of jackals, potful of hatreds, a place in which consciences are prostituted... these people want Guatemala to be a slave of Russia... our mottoes sprout from the fatherland: God, Fatherland, Liberty... the mottoes of Arbenz and his gang spread from the antifatherland: Impiety, Lies, Slavery... the symbols of this satanic motto are the hammer and sickle... our symbol is the Cross, symbol of redemption... — the Arbenz regime has drafted a law which places the control of all coffee exports in hands of INFOP, and which has been kept secret by communist leaders. INFOP will get 35 quetzales for every ton exported.
— Honduran and Nicaraguan have been receiving in recent weeks large amounts of American goods thanks to trade pacts signed with the US.
— A PRN official in Chiapas states there is a reign of terror in that department because the communists deny responsibility for the recent incidents in which nearly 60 people died.
— the Arbenz government used to be able to count on support from another communist government in the region, Costa Rica, whose ambassador in the US told Mr. Dulles his government supports the anti-Communist Declaration of Caracas.
— [several other news items]
— the Mexican army, sensing the forthcoming fall of the communist regime in Guatemala, is patrolling the border and preparing to stop any influx of Guatemalan communists. Pedroso Castro. Warning to Dra. Trejo, to the nearest army installation or you will regret having had them. Tomorrow we will identify another person in Antigua concealing weapons. We have already identified two: Alvaro Hugo Sanguino, and now Dra. Trejo.

Communismo de Pasado. [*] In yesterday’s program we spoke of how the soviet kolkhozes are constituted, and how the Guatemalan communals are trying to do the same thing here. [Goes on to give production figures for a specific kolkhoz that was written about by a Spanish emigre, and how the fruits of production are divided among the state, the bureaucrats, the party officials, and finally, the actual workers. Proceeds to compare salary figures of Soviet military and political chiefs with those of average workers. Says these injustices can only be corrected by free enterprise. Criticizes British socialism which brought the nation’s economy downhill. Then cites example of Guatemala’s nationalized farmland which now lie in disuse.] How sad that Guatemala, which we thought to be an independent nation, is merely a province of Russia, where our rulers must go to get their instructions. Soon, however, although they will continue to travel there, it will be a one-way trip. [Refrain 2. Refrain 2.]

La Veter y la Patria. Opiniones Feministas Ante el Problema Comunista. [*] The hour in which we can all feel free is not far away, but until then patience, discretion and prudence are called for….we must remain united to fight for God, fatherland and Liberty…. “he who is not with me is against me.”….these words of Christ are relevant today….every believer should renounce communism and fight it actively….to remain passive helps communism destroy religion….everyone must take a position….God or communism, there is no other choice….Religious persecution has always existed, but before it was less insidious because it was more open….in any case, people came to learn that atheistic materialism led to misery, and they returned to their religious beliefs which were strengthened by the persecution they had experienced. The Communists claimed they would let the Russian Orthodox Church continue to exist, but they took it over and ran it as an instrument of the party….here in Guatemala, as in other countries, communist orders are to not attack the church head on, but infiltrate it and form a pseudo-clergy that will preach the communist doctrine….therefore all believers should renounce this false clergy and its machinations or run the risk of excommunication….the line is drawn, for God or for Communism, there is no other choice. CASSETTE #13

029. Neveklo Company Radio. [*] Guatemala has a history of being afflicted by immoral political systems. From the dictatorships of the past to the communism we encounter today. "Reasons of state" is the driving force behind today's political system. Replacing morality, actions are taken based on "reasons of state" rather than any analysis of right and wrong. Any political system without morality will always be a danger for the Human Person, which will inevitably be sacrificed "for reasons of state" whenever necessary. The liberal systems of the 19th century are at the root of these problems, for the doctrine of those days subordinated morality to politics. Today, we look at morality expressed in the "reasons of state" phrase, which was used, for instance, to justify the assassination of Col. Francisco Javier Arana by the Arana regime. Only when we manage to establish morality as the only "reason of state," will we be able to have a true Christian democracy. Our immediate task is to eliminate communism from our system and implement a morality which will be the basis of a public life that we will implement immediately after the overthrow of the current regime.

We continue our campaign of exposing those who are keeping arms for the communists. We have previously identified Aívaro Hugo Salguero in the capital and Dra. 097  **Sapo de Mano** This is announce as the inaugural episode of this new series of political programs. This one is the case of Sgt. Carlos Enrique Posadas, accused of treason, beaten and tortured by Civil Guard, falsely confessed and falsely imprisoned. [Refrain 8. Refrain 2.]

300  **Rompiendo las Cadenas** Attacks the policies of the former Arévalo regime, particularly its economic approach. Nationalizations were the order of the day, but they inevitably were economic failures. Polaco and La Blanca are two prime examples, the latter being a huge agricultural property which became horriby insufficient when nationalized. It is true that peasants and workers now have better wages than before, but this increase is offset many times over by the increase in cost of life's basic necessities. Evidence of the bad shape in which workers find themselves can be seen in the slums in the suburb of the capital city. Everything is in economic ruin, even the hospitals, which lack the basics such as bandages. What Guatemala needs is a new system of social justice, not the current one which is leading everyone to a common misery. [Music]

Los Acusadores de Alta Traición. At one time Guatemala was a peaceful place, where people tilled the land and had plenty...and there was virtually no crime...It is true that the dictatorial regime that ruled the country constrained the rights of the people, supported only the lords and not the people, and frequently and cruelly abused the people...the along came the false prophets, preaching class warfare, social revenge, the invalidity of property...corrupted the country...crime and violence the result...the government is a full accomplice, betraying the national interests...we accuse Jacobo Arbenz of high treason.

--- a large shipment of arms has left for the Pacific coast, where they will be distributed among peasants of the popular militia.
--- Since mid-May there has been an influx of Europeans into the country, they are in touch with the communists, they are international communist agents.
--- Russian ambassador to Mexico has sent Arbenz a large amount of money.
--- Arbenz has offered the Mexican president a petroleum concession if the latter agrees to influence Colombia, Brazil and Chile to support the Guatemalan gov't. He is selling out the sovereignty of the country.
--- 7-18 European technicians are staying at the home of Major Alfonso Martinez Estevaz, chief of National Agrarian Dept, and among them are several instructors in Soviet arms.
--- Salvadoran ambassador recently said it is true Guatemalan army is patrolling the border with Honduras. A government spokesman said the reason for this is that they have information of a Castro arms invasion from there. Government leaders were observed by reporters to be pale and trembling with fear. When the time comes, they will undoubtedly flee and seek diplomatic asylum.
--- Several drunks in an interior city shouted communist slogans from trucktops, but police did nothing.
--- A peasant was injured while being trained to use Soviet arms as a result of their poor quality.
--- Anti-aircraft battery at National Palace have been reinforced as a result of our air force's incursions. Also a new regulations prohibits planes from flying over military installations.

[*] It seems like the communist leaders have finally realized that we are not going to support them... they are desperately seeking the good will and support of a small minority... since they continue with their lies, we must again repeat the truth... it is not difficult to reveal the betrayals of the communists, one need only look at their record... let's just examine their record of brutality, for instance, their method of breaking the human spirit and mind by means of psychological torture... the break the will to resist by forcing everyone to abandon their beliefs and aspirations, patriotism and love of family, religious sentiments, etc... party aspirants must break relations with their families and old friends... must fill out endless forms and answer endless repetitions of questions... until confusion is total... then begins the second phase of psychological torture... indoctrination in communist theory... forced to repeat lies after lies and admit that previous utterances were lies... until finally the distinction between truth and lies no longer exists... a state has been created... the communists have failed here but they keep trying... but the battle lines have been drawn, and the final battle for the souls of our people must be fought now. [Refrain 46. Refrain 2.]

Muestra Campaña Radical. Attacks the government for its audacity in calling the armed forces the "army of the revolution." The army does not belong to the revolution, but to the nation... it is the national army... this effort of the communists is even more audacious than their renaming the National Stadium the "Stadium of the Revolution"... and the army should be more vigilant of what is going on in the government, a government that regularly violates the Constitution... if it doesn't pay more attention, it must recognize that the day of accounting is near... army and communism are incompatible... the army is an eminently democratic organization, whereas the Marxist popular militias are thoroughly totalitarian... anyone who asserts that those two can march arm in arm is a cynical liar... as guardian of our sovereignty and of democracy, the army must not underestimate the danger it confronts and the traps laid before it... it has the obligation to clean communism from its ranks, and tomorrow may be too late. helping the unemployed. Although unemployment is rampant in Guatemala today, there is much
potential everywhere for producing the needed jobs...all that is needed is an honest government
to realize the potential...the only party responsible for the current disarticulation of the
Guatemalan economy is the communist party...so many businesses have shut down because
they are unable to withstand labor demands and obstacles fanned by the communists, and by the

[*] The loyal, honorable citizens are full of hope these days...those who have suffered through the communist persecutions anticipate a new dawn...the communist government is being destroyed by its own corruption...internal corruption is the destroy of all communist governments...because communism is an inhuman system imposed on the citizens...we now know that our plans for building a new government based on freedom, justice and equality, are about to be implemented...the imminent communist fall is a tribute to the spirit of the Guatemalan people...they cannot be conquered by communism, because they have 1,000 years of faith and stoicism...the agents of communism have used all the strategies and tactics of their world revolution methods, and their failure here has made them the laughing stock of the western world...we the men of Guatemala have a profound understanding of the words of our national anthem...the words "bitter death than slavery" are engraved on our hearts. [Refrain 12. Refrain 13. Refrain 2.]

[*] The communists, all atheists, know perfectly well that almost all Guatemalans are fervent Christians...so they try to avoid the theme of religion if at all possible...sometimes they display their anti-church feelings, as in their attacks on Roselly Arellano, but generally they prefer to speak of something else...here is some recent evidence of the true communist position on religion, articles from Komsomolskaya Pravda on the subject...[quotes from articles, on incompatibility of science with religion, on religion being the tool of the dominant social classes, on how religion degrades, science, knowledge and the human mind, how in a truly socialist society, conditions exist for the total conquest of religion]...and this is just an example of how the communist hatred for religion is at work everyday. Tomorrow we will take about another shameful article from Komsomolskaya Pravda. [Refrain 14. Refrain 10.] [Music.]

The Arbenz government is an instrument of the Soviet communists... Arbenz and Guillermo Torrillo are the principal actors, inspired by the country's no. 1 communist, Jose Manuel Fortuny... Guatemalan foreign policy follows Soviet instructions... thus the Arbenz government's efforts in El Salvador, Costa Rica, Luperon, Cayo Cortes, Nicaragua, Cuba and Honduras... they failed everywhere except Costa Rica... now the Arbenz strategy is to fill those countries to sleep with false protestations of friendship... Torrillo most recently demonstrated this tactic in Honduras, but the Hondurans saw through it... Arbenz has now converted our country into the nerve center of Central American discord... not satisfied, the Arbenz regime reaches into the Caribbean, with active participation in the assassination plot against the Cuban president... Arbenz is trying to convert our four sister Central American republics into Soviet satellites... It is against this international policy of the red government that the liberation movement fights... we are for solidarity with our brothers in America, in the West... the Guatemalan people reject the traitors who currently govern the country, and only await the moment, very near now, to eradicate communism from the country. Travelers from Guatemala to Panama told the Star-Herald that military officers fear that the arrival of the arms shipment from Russia signifies the beginning of total communist control of the armed forces. La Mujer y la Patria: Opiniones Feromonas Ante el Problema Comunista. [*] Is Guatemala destined to become a second Korea? In the last several weeks, after their notorious plans were uncovered, the ominous statement "Guatemala is another Korea" has been mouthed. Even some members of the opposition, possibly in good faith, have warned the Liberation Movement, "Don't do anything now, for you will give the communists the pretext for starting a war like Korea." Let's analyze this situation. [After a description of the Korea situation, cites several conclusions: if the communists are threatening to create a new Korea, it is because they are preparing an aggression.]

-The aggression was possible in Korea because those in the south stood idly while the north stockpiled weapons and formed divisions. And we have seen how arms shipments continue into this country.

-The communists rely on threats. We should not be intimidated neither by the communists with their threats, nor by the false promises with their foreboding warnings.

-We must act now to stop the communists in their tracks. [Refrain 2.]

Mujer en Campana Rada! Ever since the advent of the communist influence in Guatemala, beginning in the Arevalo regime, the courts have been prejudiced in favor of the communists and against anti-Communists. Specifically, the docket is full of labor cases in which the courts' judgments are inevitably against management, and civil and criminal cases in which the judgments are inevitably consonant with the PGT political line. The appeals process never seems to work for anyone who is identified as being anti-Communist. No effort was made by the courts to prosecute those guilty of murder, of genocide, during the incident at La Aurora base on 5 November 1950. On the contrary, the courts only investigated and prosecuted those who survived that ordeal, including Carlos Castillo Armas. No investigation was made of the murder of three anti-Communist prisoners at Salina prison on 2 April 1953. No one was prosecuted for the murder of Col. Francisco Javier Arana on 16 July 1949. No one has ever investigated any of the crimes committed by the Guardia Civil and the Guardia Judicial against the citizenry. And the courts have never moved to come to the rescue, the just rescue, of the 100 anti-Communist prisoners at Salina. [Music - ends at Counter 371.]
Brief sarcastic notice that Arbenz will be meeting with President Eisenhower, according to world press reports. [Refrain 2.] [6360 kos.]

029 Our Sorrors y Adorers Veneros. A critique of the Arbenz government's approach to economic cooperation. This simply doesn't work in totalitarian societies. All have failed. Such institutions in this type of regime end up serving the bureaucratic interests of those in power, and not those they are supposed to assist. But this does not mean cooperatives don't work. On the contrary, they are an integral part of our political program. They do not require a huge investment of capital. The basic necessities of life can be offered through cooperatives, without the human exploitation we see today. [Refrain 2.]

140 More notes on how the Arbenz government violates articles of the Constitution. This time it is Title 2, article 9, which states that illiterate people have the option of voting or not voting, but everyone knows that illiterate people are being herded into trucks and taken to the polls and forced to vote, not just once, but many times over. Cites other ways electoral rules are being broken regularly.

302 Attacks government, specifically the Guatemalan military attaché in Honduras, for having accused a local radio station, simply for the crime of having sold us time on their scheduling. Obviously they are concerned because they know all the emigres in Honduras are with us. Combines this with commentary on Arbenz effort to develop a mutual non-aggression pact with Honduras. They do this because they want to believe we are operating out of Honduras, but this is nonsense, we are right inside Guatemala. But they will never be able to find us because one day we're here, one day we're there, we move all about.

016 Los Acusamos de Alta Traición: It is interesting to see how the communists try to portray the anti-Communist forces of the opposition as traitors at the service of “yankee imperialism.” But the real traitors are the communists and their tools like Alfaro and his gang. They are the one who act in response to the dictates of a foreign power, Soviet Russia. They make all the talk about democracy, but their democracy is unilateral democracy, where only they have rights, only they are protected by the Constitution and the government, only they can think what they want and say what they want. They go to incredible lengths to oppress the free press, accusing it of being a tool of foreign intervention. Journalists are arrested, tortured and killed for speaking out, for speaking the truth. This is the kind of democracy they want us to have, one in which only they can say anything, everyone else is a traitor. But they are the traitors. We are sounding the warning, this is only the beginning, a wave of terror has been unleashed. And it falls upon the Army to put a stop to it. The army must be anti-Communist and defend the principles of democracy. The more the army goes along with the communists, the more it fails to stand up and do its duty, the more difficult the solution will be. But let them go on harassing the independent press, torturing innocent citizens, calling us traitors. The earthquake that is going to shake them loose is on its way. The people begin to demand for and to oppose the corruption, crime and injustice. We accuse them of high treason! [Refrain 2.]

047 Pepeando Centro. Attention, Major Marzo Antonio Franco, President of the Congress. We have been able to establish that you are caching a vast amount of communist arms. We are warning you, Major Franco, that those arms should belong to the army, because that is the only entity authorized to have them. Either you turn them over yourself, or they will be used against you when the moment comes. The next warning will be for another person in the capital. 086 La Mujer y la Patria: Opiniones Feministas Acera el Problema Comunista. [*] We want to thank you all for the excellent information campaign you have been carrying on by spreading the messages that we broadcast, and we're sure you are probably not even aware of how successful it has been. But it's incredible how the communist party, in a country that is 99% against communism, continues to recruit people. But it recruits on the basis of lies and deception. Today we will describe for you one of the party's latest little deceits. As we have said before, the party is aware the Arbenz regime is collapsing, and has been preparing for that eventuality. It has been laying the foundation of the 'United Front,' which they expect to take power after Arbenz falls. This is their classic method for seizing power. For some time now they have been placing their members in key positions in various organizations so that they can use them as the nucleus of a United Front when Arbenz falls. Women of Guatemala, this has to be stopped at all costs. The solution is simple. We must eliminate these communists and their sympathizers from our new government. Let's act now before it is too late—make sure everyone knows about these nefarious communist plans. [Retrain 3. Retrain 4. Retrain 5. Retrain 6. Retrain 2.]

104 Novelle Campaña Radical: "The great corrupting casino—plenty for casinos, but not for hospitals and schools." At the National October Fair of Guatemala, there exists a casino run by foreigners of the worst sort. It features foreign women brought here to corrupt our youth, and it serves perfectly the designs of international communism. This is the brainchild of Jorge Torreló, the traitor who will have to answer to the mothers of Guatemala for the sons who are lost in that temple of moral prostitution. Just a few weeks ago, one of our youth, urged on by Torreló, was put in a position where he had to embezzle 14,000 quetzales from the casino. The communists who run this casino have no shame in persecuting youth who fall into their trap, and this poor young man had to flee, abandoning his home and shaming his family. This sort of thing happens daily, with innocent youth being drawn in and lose their money to the point where they must sign IOUs, which is how the communists trap them in their nets. Young women also have succumbed, falling prey to a life of vice at this casino to the despair of their fearful mothers. But these artists of corruption will one day pay a price to all the deceived youth, corrupted young women, and broken homes. [Music.] [Does on to describe the plight of the depressed youth, corrupted young women, and broken homes. [Music begins, then cuts off abruptly at Counter 307.]

620 Care Saramay y Adonde Vamos. "The Social Content of Democracy." Latin American countries, due to the natural existing circumstances, have been slow in developing the type of democracy that is seen elsewhere. The principles of democracy evolved from the French Revolution, and were developed into their most beautiful form in North America, a result of the thinking of the patriots of the 18th and 19th centuries. In Guatemala, as elsewhere in Latin America, we have been slow. The principles emanating from the French Revolution were incorporated in the Constitution, but a series of despotic and corrupt governments managed to largely ignore them to eventually bring us to the point where we are now, ruled by an undemocratic and totalitarian regime. But we retain our faith in democracy, and we include in our political program the statement that our political creed is essentially democratic, recognizing the social rights of the people.

108 (Refrain 39. Refrain 7.)

125 Lt. Col. Carlos Castillo has said: "Compatriots, the truth is there is a great conspiracy against the communist government of our country...[long statement]...per la liberacion nacional."

Los Tintretones del Tintreto.

Now we repeat a verse that you already know.

Echar ropiques y di姿势,
Que a貽as los merus, merus,
Abrir puertas y ventanas,
Que oímos los Tintretones.

Tomorrow we will play almost the entire song, complete with the final "bombas."

Ya un nuevo sol ilumina
Selvas, montes y potreros,
Porque hoy en esta charapa,
Habrámeros los Tintretones.

Abajo al crimen y al robo,
Vamos a echar de la silla,
Al comunista Jacobo,
Y a su maldita pandilla.

Adentro que están torteando,
Y a hacer vomitos en palata,
Adelante que ahora es cuando
Los denos en la maceta.

El pueblo de Guatemala,
Sufre con resignación,
Porque sabe que muy pronto,
Tendrá su liberación.

El guaco jala que jala,
Batindo a las hardas rojas,
Vamos para Guatemala,
A ver a nuestras pallejas.

Abrir puertas y ventanas,
Somos los meros, merus,
Echar ropiques y dios,
Que oímos los Tintretones.
Quién Quieto, Yo machete,
Adentro que están tornando,
Llenas cuando, llenas cuando,
Los Tiran los del Trinquete.

Abrir puertas y ventanas,

Echar repiques y danzas,
Que vayan los Trinqueteros.

¿Quieres ya asistir,

Para que queda una gloria,
De haberte volado a Jacobo.

Abrir puertas y ventanas,

La Mujer y la Patria: Comisiones Femininas Ania al Problema Comunista. To understand why we must act now, we must know the kind of life women would have under a communist government... once we know this, I doubt there will be a single one of us who would hesitate to use her influence to speed up the fall of this nefarious government... goes into a brief historical account of the struggle of man to find an equitable system of government based on principles that all men are created free, and that they are all brothers... two hundred years ago, governments based on these premises had come to life in parts of Europe and the Americas, and were spreading... in central Europe and to the east, however, where the people had not had the opportunity to experiment with new forms of government, the political system that took hold, the basis of communism, was predicated on the facts that man is not free but a slave of his environment... therefore, this theory holds, this environment must be forcibly changed through the power of a dictatorship, controlled by very few, that could control environments and people... the communist dictatorship spread and defeated terrible dictatorships that rose to confront it - Fascism and Nazism... with their defeat, communism achieved huge power and has managed to conquer large parts of the world... the Arbenz government is just a small part of that international movement. Fortunately, the people have awakened to this threat, because they know that life without freedom is intolerable... and they have discovered enormously powerful allies - the people who have lived under communist oppression... these people who have lived under communism will be the cause of its downfall, just as our people are now causing the downfall of Arbenz.

[Refrain 7. Refrain 2.]

[Refrain 2.]

Nuestra Garnacha Pasada. Communist Penetration of the Trade Unions. Trade unions play an important role in our country, and so much so advocates for workers' interests, but more as political instruments. Before the 1944 revolution there were no labor organizations of any significant type. After the fall of the Ubico regime, the communists took the lead in developing unions. During the brief period when Gen. Ponce was in office, Accion Civica was formed. Although comprised of elements from across the political spectrum, it was controlled at the top by Jorge Garcia Granados and Guillermo Toribio Garita, two pro-Communists who were closely linked to the Mexican Russophile Vicente Lombardo Toledano. The extreme left-wing Vanguardia Nacional was also formed. This group was disbanded by its leaders so that its key people could establish themselves in other political parties and lead them on a pro-Communist path. Some of them were split off to form the communist party, whose name they quickly changed to PGT. These movements featured well-known people such as Ocaño Franco, Fortuny, Peñarriar and Gutierrez, but another important one, now dead, was Enrique Munoz Malm. He held key positions in all governments up through the current Arbenz one, always pushing the pro-soviet line, and converting Guatemala into a refuge for communists from all over. During this period, workers were organizing, forming unions, and making into two distinct larger groups - the free Union Sindical, and the communist-controlled CTG. Arevalo and Arbenz eventually managed to dissolve the former, leaving the CTG as the sole labor central. In the peasant area, a parallel organization, the UNC, was formed, in close collaboration with the CTG. [Eaves into a short commentary along the 'yes, there is a conspiracy in Guatemala, a huge conspiracy of all anti-Communists conspiring against the traitorous Arbenz regime' theme.] [Music.]

Los Acusados de Almo Prision. After the message delivered by President Arbenz to the Congress his past March 1st, there can be no doubt that the Communist Party is alive and active in Guatemalan participating in government functions at all levels, or that the President made clear that he himself is the protector of that Party and its activities by declaring that the party is Constitutional. So, discarding his mask, he openly and in defiance of the law advocated the legality of the Communist party. [Goes on to describe how all along Arbenz has been caught in the communists’ web and has been serving their interests even since before the murder of Col. Arenc, how as a loyalist to the Commies he has betrayed the National Army, but how the Army still has loyal patriots he will not serve those communist interests.] We accuse Jacobo Arbenz of high treason!

And now the news.
- The American missions that have been in our country since WW II will now be forced to leave. That information is confirmed, as we have a very reliable report that Jose Manuel Portill is carrying out an order to stop cooperation with the Soviet missions. To that effect, a Guatemalan army officer died last night in Mexico with the Soviet military attaché at Sanborn’s restaurant.
- A corpse was found in recent days outside the town of San Antonio, Suchitapequez. The authorities said he had been involved in a fight and killed as a result. The truth, however, is that he was the second victim to date of the faulty weapons recently imported from behind the Iron Curtain. The government ordered a cover-up of the true cause of this incident.
- Minister of Government Augusto Chaima Macdonald has ordered reprisals against any person who propagates the notion that the day of liberation is arriving, which has caused housewives to stockpile foodstuffs. Despite his orders, the housewives are continuing this practice, just in case.
- The reason for the recent cowering of many officers in the armed forces is that Arbenz has learned of the existence of the Legion of Honor, and organization of worthy officers, which has a current membership of 52 active duty officers.
- Montenegro Paniagua is reportedly turning against Arbenz, because it was Arbenz who ordered him to send the circular in the name of the National Confederation of Peasants, inviting the popular militias to unleash the national massacre whenever they felt disposed. Montenegro Paniagua has taken the public blame for this, while Arbenz declines to accept any responsibility. It is Arbenz’ plan to assassinate Archbishop Rosal y Avila and other prominent church leaders.
- The Paris daily Le Soir has editorialized that if the above reports on Arbenz’ plans are true, Guatemala is certainly a country of savages. Then they say it is us, the anti-Communists, who are discreditting the country.
- Flash! The military police in the capital in recent days raided the homes of Alvaro Hugo Saldaranda and Néstor Castañeda, where they found submachineguns, rifles and grenades. Thus they confirmed our reports on Pionero Centro [see Cassette #184].
- The news items you receive on this segment are not published in any newspaper. Today we have for the anti-Communist people of Guatemala a new statement from the chief of the Liberation Movement, Col. Carlos Castillo Armas. [Reads message from CCA that says recently imported arms are not for the army but for the popular (communist) militias, and are further evidence of communist plans to subjugate Guatemala and a huge offensive to the military. Goes on to provide results of an interview of CCA by foreign correspondents.]
Soon, on the 15th of July, it will be five years since the vile assassination of the chief of the Armed Forces, Colonel Francisco Javier Arana. This was the price Arbenz paid to international communism in order to gain the presidency. Their names are actual assassins, in the service of Arbenz and Juan Jose Arevalo. Refuges Col. Arana, who refused to sell out to Communism.

Let us now throw out the assassins, judge them, and punish them.

Acusamos de alta traición. Accuses Arbenz of treason and a long list of related crimes.

Important Notice. The High Command of the Liberation Army announces that it has declared as a military target any motorized vehicle appearing on the nation's highway beginning yesterday. Any such vehicles will be strafed by our air force. We warn inhabitants of the capital that they should abandon the city as soon as possible, but in doing so should not use the highways leading to the south and west because we anticipate movement of the communist militia in those regions in an attempt to thwart the liberation forces. Consequently, any movement noticed from the air in these areas will be considered a military target and will be attacked without hesitation. 'This message is similar to one on Cassettes #288-289.'

Attention, Guatemalan Army. Units engaged with liberation forces led by Col. Carlos Castillo Armas. Surrender immediately. Those who do so now, without offering further resistance, will be respected and freed immediately. Those who join the liberation forces will have earned the gratitude of their country and the admiration of their countrymen. Those who persist in suicidal resistance to the superiority of the liberation forces will be destroyed without hesitation. We are speaking in particular to Zone I-3. You are surrounded, you have no food or air power. If you do not surrender before 2400 hours today, you will suffer the consequences of your foolishness. We are declaring responsibility for what might happen. We do not want to shed blood needlessly, but we will liquidate anyone who persists in defending an anti-Guatemalan cause, betraying the country. Surrender immediately, or you will be squashed.

A luchar Guatemaltecos, a luchar todos bajo los símbolos: Dios, Patria, Libertad, y las aspiraciones: Verdad, Justicia, Trabajo. A luchar por Guatemala y para Guatemala. Muerte al comunismo! Lucheros con Carlos Castillo Armas!

The communist government and organizations are receiving pledges of support in Guatemala, just as happened during the Estrada Cabrera and Ubico tyranny of the past. Nothing has changed. "Voluntary" offers of support, signed by workers who would lose their job if they did not. We will find out who was a voluntary and who was a "voluntary."

They claim one of our planes was shot down, and say it was piloted by Americans. What hypocrisy. This is totally false. We have not lost a single plane.

TGW has become very nationalistic, playing "Chapin" music and accusing us of using mercenary troops. [Goes on to accuse TGW and all other government figures of high treason, selling out their country. But now Col. Castillo Armas' forces are here to confront them.]

Guatemalans, many of your compatriots have sacrificed themselves for the country. What have you done? Join our forces.

The liberation forces under Col. Castillo Armas have been trying to employ the minimum of violence necessary in this struggle for the country. However, in many places, the armed

Says government is fighting with mercenaries from communist countries, liberation army is all-Guatemalan. We will triumph in the name of the fatherland.

123 The traitorous Jew Jaime Rosenberg, chief of the Judicial Guard, has just released a disgusting statement accusing our planes of having fired on poor neighborhoods in the city. The residents of the city know perfectly well this is a lie. For the information of the rest of the country, our planes have not fired on anyone and will not do so. We have not even fired on military targets, but if communist arms fire on us we will level them. But the civilian population has nothing to fear because this is their cause too. Viva free Guatemala! Death to the communist traitors! All Guatemalans to fight with Castillo Armas!

097  Pregando Centro. Radio Liberation addresses the leadership of the communist party in Chiapas, cites several names of leaders. You are responsible for the massacres recently carried out in that department and for the distribution of arms to peasants whom you have instigated. Either stop your activities now or pay the price. Every day at this time, and at the other broadcast time as well, we provide one of these warnings.

100  Several political quips. [Refrain 2.]

132  La Mujer y la Patria: Opiniones Feministas Ac te o Problemas Comunitario. Female announcer comments on forthcoming youth festivals, in Guatemala and Chile, sponsored by WFDY. Describes the WFDY, and says congresses are purely political in nature, to recruit more communists. Identifies communist leaders of these festivals. Mothers of Guatemala! Don't let your children attend these communist events which have as their only objective the corruption of their minds and souls!

287  Nuestra Campesina Radical. Talks of continuing to expose "red infiltration" in Guatemala, citing several instances of anti-Communists having been ejected from labor unions and other organizations. Promises to continue these exposures.

370  Song, "Johnny Guitar."

Various slogans not heard before. Refrain 2. [9360 kcs.]

Give Sermos y Adonde Vamos. Presents the "Tegucigalpa Plan." With suspension of individuals guarantees, the communist dictatorship of Arbenz and his red band have abolished all the rights inherent in democracy. Describes failed communist plot to take over Honduras, with result that the frustrated Arbenz now can do nothing but take it out on the Guatemalan people. The people will not follow these communist traitors because they know they are lying, and they will be the first to try to flee when the great day comes. Like all traitors, they are cowards who will unashamedly abandon those they now extort to action. The time has come to decide — Castillo Armas, or the communists.

065 We interrupt our regular programming to bring you a special message from a group of active duty officers in our [meaning "national"] army. The news of the shipment of Soviet arms has caused violent protests by the majority of the members of our armed forces. We are embarrassed by the government's apparent belief that we need to resort to this sort of suspicious importation of Soviet arms. All this seems to confirm the long-rumored connections between international communism and the Arben regime, and that our country has been selected by Moscow as a base of aggression in the western hemisphere. We are further embarrassed by the fact that no local news organ was allowed to publish news that was published around the world. We ask the commander in chief to repudiate this shipment, and immediately remove these arms from the control of Cruz Vier and turn them over to the army where they belong.

066 And now we return to our regular programming.

035  Very soon the world press will have on its first page, "News item: the Year! Revolution in 
    Guatemala!" [Refrain 2.] [3420 hrs.] [Col. Bogey's March].

062  We have in our possession documents which prove what the communists' next step will be. Not 
    satisfied with the plundering of the national treasury by the local communists in the Arbenz 
    government, the Kremlin has issued new orders: the quetzal will be devalued this coming July 
    1st. We know that along with the arms smuggled in from Czechoslovakia, great amounts of bank 
    notes printed in eastern Europe were also smuggled in, and these will become the nation's new 
    currency starting July 1st. To avoid disaster, all Guatemalans should immediately withdraw all 
    their savings from banks. As much cash should be moved abroad as possible. And quickly, 
    because hearing this warning, the Arbenz government might move up its schedule.

160  [Refrain 45, Refrain 9.]

170  Several new refrains, by male and female announcers.

189  Attention anti-Communists. Pass this message [repeats 006 above]. [Refrain 2.]

At 4:20 this morning there was another big fire, but maybe it was just coincidence. We know the truth, congratulate the boys on their good work, and urge them to keep it up.

027 Attention Guatemalans, we're going to be providing some combat instruction, especially for private citizens. Stay tuned. For now we announce that the liberation army is in control of Sectors D, E, F, H, I, N, and P. (Cassette #138-055 listed all those less Y, so this cassette probably comes right after #136 in sequence. #136 also mentions the 4:20 fire and includes the sarcastic remark about TGW-- see above.)

044 Combat Instructions: Tie up telephone lines. [This instruction is included on Cassette #88-037]. Housewives, convince your maids to work against communism. Maids, you do the same with your employers. [Repeats the other instructions from Cassette #88-037.]

123 Radio Liberation passes on an appeal from CCA for the enthusiastic support of everyone in the defeat of communism in Guatemala.

165 Radio Liberation is broadcasting for 15 minutes every hour on the hour, 24 hours a day.

160 TGW and the government continue to lie by claiming our aircraft are bombing civilian targets. Our planes are not attacking cities and are not destroying private properties. They are attacking military targets only when obligated to do so, and are equipped only with machine guns. Viva free Guatemala! Viva Carlos Castillo Armas.

180 Radio Liberation now leaves the air. We will be back in 45 minutes.

186 Attention Guatemala! Radio Liberation is on the air again, from its improvised studios with the high command of the liberation army. [Omits Y, as 027 above.] [Col. Bogy March.]

235 The moment of decision is here. Fight today, or you will weep tomorrow for having missed the opportunity to fight for your country. 022 Sign On (variant). 6360 kcs. Back again, as we are every 45 minutes. We are going to bring you a recording of a speech made by Col. Carlos Castillo Armas last night at 8:30 from headquarters of the liberation army, located at some secret point in Guatemala. Meanwhile, this bulletin. The Arbenz government announced yesterday at 3:00 PM that the pro-government rally scheduled for 5:00 PM would not be held. They said that because of rain, the rally would be postponed to another date, a date that we know will never arrive. The real reason for the cancellation was that the government knew there was no public support for rally and it would have failed miserably.

050 The CCA tape is played. First words: "Pueblo Heroico de Guatemala. Queridos compañeros de armas... La aurora de la liberacion termina nuestra patria... Se ha iniciado la lucha gloriosa contra la tirania, la traicion, el engano y la verguenza...". Final words: "Marchemos hacia la victoria inspirados por nuestros ideales... Con la Patria, con la Revolucion...". [Exhortations follow... this is zero hour... it is time to fight, etc. Today's date is given as 18 June.]

172 The government is claiming our air force has bombed the port of San Jose, Guatemala City and other towns. All this is totally false. So far, the air force has not dropped one bomb, it has only fired a few machine gun bursts to show that we are serious. However, we have news of a major firefight in the capital just 30 minutes ago, we are confirming this report now and will let you know.

Sign On II. Refrain 2. Operating from Headquarters in Guatemala (no frequency given.)

Attention Guatemalans. Col. Carlos Castillo Armas thanks the population for their support, as the support of all will be needed to eradicate the communists. Only the communist reds have no place in the new Guatemala.

Several slogans supporting the troops of liberation which "are fighting throughout Guatemala." The heroic citizens are fighting heroically. Arbenz and his gang are trembling! The time has arrived! On your feet, Guatemalans! The Fatherland calls you to combat!

Arbenz tried to speak to the nation at 8:00 PM last night via TGW. However, there was interference on the station’s frequency which prevented his being heard. This was payback for the interference TGW has tried to put on Radio Liberation.

Call to the army to fulfill its constitutional duties. News items:

- Tecucigalpa, June 14: a communiqué informs of the initial successes of the invading army in Guatemala. P-47's attacked the capital three times in the last 24 hours.

- the only response to the air attacks has been in the capital, otherwise there has been no opposition.

- the government called for a blackout in Guatemala City.

- Washington, Dept. of State rejects Guatemalan claim that they are the victims of aggression. Just an internal uprising, said State, speaking through ambassador John Peurifoy.

- Guatemala has called for a meeting of the Security Council in the UN.

- Mexico, June 15th. Guatemalan ambassador says all is calm in Guatemala, the people stand behind their president, the problem is with the army. Radio TGW also says all is calm but then denounces air attacks by the invaders. For his information, the rebel air force has three bases in full operation in Guatemala.

- Rio de Janeiro, June 16th. Victor Raúl Haya de la Torre, Peruvian Aprista leader, calls for a meeting of all Latin American foreign ministers to study the Guatemala situation

- several other news items commenting on Guatemalan situation.

- the Guatemalan government insists there will be no devaluation and that gold reserves are at a high level. We know this is a lie and that the major part of the gold reserves have been transferred overseas in the names of government officials. By the middle of next week Guatemalans will see the devaluation occur.

Today there will be three broadcasts, at 0900, 1200 and 1700 on 6360 Kcs. And tonight at 2200 on 3420 Kcs. There can also be special broadcasts at any time. Here's one now: Carlos Castillo Armas at this moment is meeting with the High Command to discuss the response that will be given to Arbenz' message to the people. We will let you know what the response is tomorrow. Radio Liberation will be with you again at 0900 on 6360 Kcs.

030 Important Notice. The High Command has declared as a military target any motorized vehicle on the public highways, starting today. Inhabitants of the capital should evacuate it as soon as possible, but should avoid the highways leading to the south and west, because movements of the communist popular militia are expected in those areas. Any such vehicles will consequently be attacked from the air.

065 Three of our brigades have just informed us that they have captured four more towns in Sector H, making for a total of 19.

079 [Reads communique from the Executive Committee of the Liberation Movement in response to Arbenz's message to the people of the day before. Although to date we have attempted to avoid bloodshed, we will now wage full-scale warfare. The air force will respond to any attack on it. Anyone residing near a military base is warned to leave the area. It is a lie that the liberation army is comprised of mercenaries or financed from abroad. Residents of the capital should leave it immediately. Promulgated at 0800 on June 20th, 1954, at General Headquarters.]

128 Important Notice. We advise Camacho that the 30,000 rounds he requested are on the way and may be arriving soon for a full attack on Sector R1-6. Proceed per plan, and good luck!

139 Los Avoreses de Aba Traicion, Attention Army. Soon, on the 18th of July, it will be five years since the vile assassination of Col. Francisco Javier Arana, commander of the Armed Forces, the price paid by Jacobo Arbenz to international Communism for the Guatemalan presidency. [Eulogizes Arana, attacks Arbenz and the communists.]

195 News bulletins confirm that town after town is rising in support of our troops. The liberation forces now have three air bases operating in the country, and control 18 important towns, without counting those that have risen on their own account. Everyone should collaborate in this movement. Tomorrow will be too late. Out with the Moscow communists! Now is the time for Guatemalans to fight!

228 Important Notice. Repeats 030 above.

245 Pregunto Centro. This is for Leonardo Castillo Flores, leader of the National Peasants Confederation. After your speech saying the peasants will rise up to defend the government, does this mean you will lead them in combat, or will you go hide like all other cowards of your type. Be advised, if you don't lead them, they will kill you for sure. If they don't, we will.

295 Warning to anti-Communists. You should be very careful when you try to steal official vehicles, because our sabotage groups have placed bombs in them that are set off by ignition.

292 Attention farmers and peasants. You too can help the cause by placing cables across highways to impede communist movements.

300 Here's another notice further proving how everyone is rallying to the cause of liberation. We are advised that another Air Force plane has deserted to our general command and is now in our service. We cannot give the name of the pilot yet so that Arbenz cannot take revenge on his family.

Combat instruction for civilians. Men, women and children. Women, you can help too. Make long telephone calls. Leave the phone off the hook. This works against the communists.

Drivers, you can help too. Tell drivers how to avoid carrying communist officials. Some drivers can evade carrying large groups of people who help.

Army mechanics, you can help too. Make the materials under your control unserviceable to the communist treasurers. All those who work in telecommunications can easily block communications that reveal the location of anti-communist forces, and also thwart the issuing of orders and instructions by the communists.

Children, you can help too. Obstruct communist troop movements. Throw nails in the streets. Shine lights when you hear our airplanes. Cut power cables or telephone lines.

Railway and port workers, you can help too. Obstruct loading and unloading operations. Keep the convoys from arriving at their destinations. This can easily be done by breaking rails or weakening bridges.

Road workers: A backhoe, a bulldozer or any other heavy vehicle abandoned on a roadway makes a great roadblock.

Peasants: If your employer is anti-Communist, help him in everything, and ask him for progress reports on our movement. Form your own groups to fight for liberty. Send all information on communist troop movements, and stop those movements. We will supply the groups you form.

Attention, all anti-Communists everywhere! To arms! Colonel Castillo Armas has called the national anti-Communist movement to arms! Attack all communists and take their arms. Many of the arms brought by the Reds are in the hands of anti-Communists. Take away all the communists' weapons and use them against the forces of the traitor Arbenz. Viva free Guatemala!

All Guatemalans are risen and the liberation army has seized much ground. We cannot give details right now because they are a military secret, but we can tell you that the whole country has responded to our battlecry! All Guatemalans behind Castillo Armas to overthrow the tyrants!

Be wary when you try stealing the vehicles of communist officials. Because our sabotage teams have placed bombs in many of them that go off when the motor is started. Be careful.

Martial Music. No Sign On. Attention Guatemalan Army. This is a message for all officers and soldiers. [March Music and sound of marching boots] You are surely aware that the freighter Altham, bearing no standard and no documentation, and which is believed to be Swedish-registered, arrived in Puerto Barrios from a Polish port. This ship brought 2,000 tons of communist weapons. Do you think the clandestine introduction of these arms is consistent with the traditional honor and pride of our army? The origin of these arms adds weight to the charge that the government has sold the country out to the Soviet imperialists. The purchase of these arms was arranged by Mayor Alfredo Martinez Estevan during his recent trip to Europe. We also know that the first shipment was delivered to Cruz Vier’s Civil Guard, since the communist leaders have more trust in him than in you, the army. At least part of this shipment will probably also go to the police or to the workers which are being organized by the communists, or else part of them may be transshipped to neighboring countries, thereby helping destroy our friendly relations with them. We also know that some of you are concerned that Arbenz and Defense Minister Sanchez plan to post units at various border points under the false pretext of the fear of invasion. The only invasion being planned is that by the Soviets, as illustrated by the Altham affair. The Arbenz conspiracy doesn’t want a strong and responsible military around the capital, hence the support to Cruz Vier and the border-postings. The situation is grave. The day of great decisions has arrived. Clean out the communists. Be ready to defend the constitution. The nation is in peril, the communists have infiltrated your ranks. [More martial music and marching boots.]

Music fades out. No Sign Off. Nothing more on tape which runs for five minutes.

022 Alo Guatemala. Alo Guatemalteco! Alo Ejército de Guatemala! "Radio Liberation has an important message for the Guatemalan Army. This army of liberation, commanded by Colonel Carlos Castillo Armas, has risen up against communism in Guatemala. We are fighting to expel from our country the communists which has penetrated it. We are not fighting against the army, which we know has Guatemalan and anti-Communist sentiments. We do not want to fight with you. We want the Guatemalan army to contribute with the army of liberation in the cleansing of communists which must be done on our soil. We have not fired either the capital or the port of San Jose or any other population center. The military are witness to this fact, as are the civilian populations of all towns over which our aircraft have flown. We do not want to attack, unless it is absolutely necessary. Nevertheless, military forces have fired against our aircraft, which have not returned the fire. We do not want to fire on military targets unless forced to do so. Attention, Army. We have not responded to the attacks made on our planes. Our planes will not respond to these attacks unless forced to do so."

053 Attention, Generals. The high command of the army of liberation affably congratulates you for the success of Operation Canary. Keep it up, Generals. That's the way to serve Guatemala. Your work facilitates the advance of the liberation army. *Viva free Guatemala!*

056 We inform our companions that the army of liberation now has under its control sectors D, F, H, I, N and P. Continue the struggle, companions, sooner or later you also will attain your objectives. *Forward for God, for Fatherland, and for Freedom!* 

074 The official station TGW likes to proclaim that everything is normal and calm, but nevertheless is constantly calling out firemen to put out fires that are cropping up all around town. This morning there was one in the capital at 4:20 AM, for example. Congratulations, boys! Keep up the good work! *[Martial music]*

085 Government spokesmen continually claim that our planes are attacking civilians and civilian properties. This is a lie of desperation. Our planes, which are flying throughout the republic, attack only communist military targets, although if forced to, they will attack military targets. Don't believe the communist government's lie! We invite the people and the military to join our fight against the communists! *[Martial music]*

110 An exhortation to the army to fulfill its duty and come to the support of the people who have risen up against the communists. *[Martial medley here includes "And These Caissone Keep Rolling Along..."]*

150 Series of moving rallying cries suggesting the armed struggle has begun and nothing can stop the forces of liberation until the communists are thrown out. *On your feet, Guatemalans! The Fatherland Calls You to Combat!*

022 Attention, Guatemala. The change made yesterday by the Arbenz government before the UN Security Council, was discussed by the representatives of the world’s nations. All the representatives agreed that the case of Guatemala should be discussed within the Organization of American States (OAS), the appropriate forum for intra-continental charges of this sort. Nevertheless, there was one country that defended the Arbenz position, one country, the only country, making use of its right of veto. To repeat, one country, one solitary country. Which country? The Soviet Union.

035 Attention, Guatemala. Carlos Castillo Armas invites the people to participate in the liberation of Guatemala. In the liberated Guatemala, only Muscovite red has no place. Otherwise there will be no color difference. Plays Los Trincherones’ War Song.

058 Attention, Guatemala. Last minute war news. One of our pilots sends greetings to the passengers of the commercial airline “Lisbon” which had to land at the Esquipulas field this morning. Our pilot had buzzed this aircraft twice, sighting it with machine gun bursts, because he thought it was a plane delivering to our cause. He subsequently found out that the plane’s passengers were international photographers. He sends them a hearty greeting, they hoped they were not frightened, and hopes they got many fine pictures.

110 Attention, Juan. In Sector 5, leave position 17 and assume position 5 (music interrupts as the message is repeated).

126 Attention Guatemala. The forces of liberation march victoriously throughout Guatemala. Naturally a few pockets of the government’s counterattack remain, but we want to give you a bulletin. Attention, inhabitants of the town near where “the King of the bridge” occurred this morning at 7:00 AM. Surrender, otherwise you will suffer the consequences of a suicidal position. We can provide no further details because these are military secrets, but the liberation army marches on to victory.

150 Attention. Attention 12th Brigade. Congratulations for your accomplishments. Today at 1800 we will get together with you at the appointed place.

160 Los Ayacucho de Alta Trasición. Attention, urgent message for the inhabitants of the capital. We have already asked you to abandon the capital city, but do not do so in motorized vehicles because as of yesterday they are considered targets. Also, do not leave by the South or West highways, because if our aircraft see movement on them they could confuse civilians with members of the popular militias. Until today the government has lied when they said we have bombed cities and public buildings. Until this moment our posture has been to invite to surrender, so as to avoid bloodshed. But Arbenz’s position is about to force us, in the very near future, to deploy explosives from our aircraft. Therefore we warn all Guatemalans to get away from all communist-military targets. Better still, leave the capital entirely.

240 Attention electricians. Be advised it may be dangerous to attend the rally which has been proposed for tonight.

248 It is consistently rumored that Col. Carlos I. Diaz, accompanied by 40 other officers, have sought diplomatic asylum in various embassies. This is what communism leads to. We regularly warned the military that when Castillo Flores began to form the militias, this meant the military would be liquidated because Arbenz has no confidence in them. If the rumors of the
army forces chief's asylum are true, we urge the military not to permit replacement by elements of the militia. Act rapidly, before you find yourself dead or in jail.

260 And so ends another program of Radio Liberation. Today, with almost the entire country under our control. We have operated on 6380 kcs. We will be back again at 5:00 PM on the same 6380 kcs. Music.

307 Goes off the air, but recording quickly begins again, breaking into a statement, ..."If the reds react with violence, we will use violence. If they surrender, it will be better for Guatemala..." [music: ...and those caissons go rolling along...]

329 We interrupt this program for an interesting bulletin. We have just received a bulletin. We invite the entire country to tune us in at 5:00 this afternoon, when Col. Carlos Castillo Armas will speak before our microphones. [Music]

355 Those who deliver their country to communism are traitors. You are listening to Radio Liberation, the clandestine transmission.

Attention, Guatemala. For the first time since we began military operations, we are able to inform that the town of Esquipulas is in our hands. The wick that was lit two days ago is now near its final objective. Today a mass was held in Esquipulas with the entire brigade present. Religious music and prayers which may be attempt to replicate this mass.

Women, do your part. Follow up on the action begun by the men by not letting your men come to the support of the communist gang.

Guatemalans, now is the time, now or never.

Army, attention. You know our army's power, you are defending a foreign intervention by international communism. For your own good, for that of your families, you should join ranks with the army of liberation. Decide now.

Attention army troops engaged with the liberation forces. Surrender immediately. Those who persist will be destroyed. Zone L3 in particular. You're surrounded. You have tasted our air power. Surrender immediately.

Guatemalans. Now is the time. Now or never. It will do no good later to cry like women for not having fought like men.

You've waited for the great day. It's here. Be now the time to fight. Death to communism, viva free Guatemala!

[All these exhortations interspersed with much martial music.]

The government lied when its news bulletins said we bombed public buildings. Our position until now has been an invitation to surrender so as to avoid bloodshed. That's why we originally just dropped leaflets. But given the government's response to this, we have now decided that force must be fought with force. The Communist bullets now will be based on the truth.

Attention Group 17 of the Liberation Army in Sector 045. Advance to the northeast. 12 kilometers, the area is clear. Await Patrol 8 from the Arcadia Group. Good luck.

Attention Guatemala. Radio Liberation proclaims we have 25 towns under our control at this moment.

Attention army. [Repeats message from 113 above.]

In closing, we repeat we have 25 towns under our control. Sign Off.

Attention, Guatemalans. Attention, Guatemalans. The summer... has arrived... and the roses.... are in bloom. [Repeats.]

[Denies government allegations that liberation army aircraft have been bombing civilian targets. Asserts that this is a lie because their planes have not even begun to carry bombs.... yet. The civilian population has nothing to fear from us. Col. Rodolfo Mendoza, our air force commander. He was one of the pilots that flew over Guatemala yesterday, and over these very microphones he denied the government's charges. Col. Mendoza's words will be retranslated today.

More exhortation. Sign Off. Radio Liberation will be back with you in 45 minutes at 7:00 AM sharp.

We have received important messages from all over the country. The entire country is in arms, and much of it is under control of the liberation army. Today will be filled with lies by the Barrios regime. Don't be taken in by their lies. Listen to Radio Liberation.

Attention anti-Communists. Be careful when you steal government cars, our sabotage teams have installed explosives set off by ignition.

Our next broadcast, at 8:00 AM sharp, will be on 6360 kcs. Pass this word on. We are going to go now from the 3420 kcs on which we are operating to 6360 kcs on the 40 meter band.

Once again rumors have reached us that a yellow fever epidemic has broken out. Other rumors have it that the capital's water supply has been poisoned. We categorically deny these rumors, there is no yellow fever, and no poison in the water. These rumors are from a desperate government.

[Exhortations.]

048 Exhortations to the army to do its duty by saving Guatemala. The hour of liberation has come, and Guatemalans are fighting heroically. Stinging exhortation to everyone to rise up.

224 Within a few days you will hear this report. Moscow wants to eliminate our loyal Army. To that end, they have offered Jacobo Arbenz a huge farm and a substantial bank account in far-away Argentina if he will turn power over to the Guatemalan Supreme Soviet. This communist government has already been put together under the presidency of PGT chief Jose Manuel Fortuny. They are just waiting for Arbenz to deploy the army to the borders and coast so that the communist shock troops can seize power under the command of their Soviet chiefs. Army soldiers and officers! Prevent this treason at all cost! Pass this message on to anyone you know in the military.

The Guatemalan government imposes severe censorship, so that the people cannot hear what is being said about the country. But Radio Liberation is not affected by this censorship, and we are free to report to you what is said around the world about our country. [Quotes from "yesterday's Sunday editorials" of the New York Times and Herald Tribune editorials. Also an unnamed St. Louis paper, and statements by former Guatemalan Col. Roberto Barrios Pena in a New Orleans paper.]

Message for foreign correspondents in Guatemala. Your reporting from Guatemala as published in your foreign papers has been very inaccurate, because you have accepted news from government officials, or even lifted it from government handouts. For your benefit we are now going to provide you with some facts, and you, as professionals, can draw your own conclusions. Can you really accept the coincidence that when our planes overflew the capital for the first time dropping bombs, as says the government, that the house of the mother of Col. Rodolfo Mendoza was hit? Can you accept the further coincidence that on the second bombing run, the house of Col. Mendoza himself was hit? We also inform you that Col. Rodolfo Mendoza is now commanding our air force. In any case, do you really believe bombs were dropped? Look around, ask people on the streets, and you will find no signs of any bombing. The Arbenz government is using you to fool the world. [Goes on urging correspondents to check out all government information bulletins for lies.]

Los Acuseamos de Alfa Triqui. Attention, people of Guatemala, especially residents of the capital. At this very moment the official radio station TGW is calling for merchants to open their shops and for everyone to lead their normal life. This is suicide, people. It is terribly dangerous for you to go out in the streets, for children to go to school. No one should stay in the city. Everyone should evacuate it. If you look to the skies you can see our smoke, smoke coming from fires. The great campaign of liberation is coming to a successful end. The liberation forces have already made their first offering of thanks to the Lord of Esquipulas, who marches at the head of our victorious forces.

Sign Off. This ends today's first broadcast. We will be back on the air at 12:00 PM.
Attention, people of Guatemala! To close our broadcast we have received an urgent message from the High Command of the Liberation Army. The High Command announces that from this day onward, any motorized vehicle of any type moving on any highway will be considered a military target. (Repeated several times.) [Martial music.] Man-drawn or animal-drawn vehicles may be used to evacuate the capital. But the highways to Antigua or Matapalo cannot be used because any such vehicle on these highways will be viewed as transporting troops in disguise. We know that because of our attacks on the zones south and west of Guatemala City, heavy reinforcement will be sent there. The capital should be abandoned, but not via these highways.

This message is similar to one on Cassette #28A-055.

Attention owners of motorized vehicles of all types. In order to prevent the commandeering of these vehicles, and their subsequent destruction by our forces, you should render them inoperable for the time being. Otherwise they run the risk of total destruction by our air force if they are in the hands of the communists or the Arbenz government. Furthermore, any Guatemalan who want to aid the cause of liberation should place obstacles on these highways, be it tanks, rockslides, tree trunks, or weakened bridges.

Repeats above notice. We'll be back again at 5:00 PM on our frequency of 6300 kilocycles.

[brief modulation to the army to "due its duty."]

All Guatemala is in arms. Many places are under control of the Liberation Army. We cannot yet give the names of places because that is a military secret. But we soon will be able to give great news. All Guatemala is following Castillo Armas!

Attention anti-Communists, be very careful when you steal official vehicles because our sabotage teams have employed explosives in many of them. Let the communists explode with them, not you!

022 Attention People of Guatemala. Attention Army of Guatemala. Special Bulletin. The High Command of the Army of Liberation reports that the first defections from the national army have occurred in the sector of Guam, a fine example that we call on the national army to emulate.

047 Attention National Army, Attention People. It is known for a fact that the communist party has distributed arms among peasants of the popular militias, gotten them drunk, and incited them to bloody acts against the civilian population. We warn the army, which must put a stop to this practice. If the National Army asks for, or requires, a truce to allow time to clean up this situation, the liberation army is disposed to grant it.

063 Attention Guatemala. We deny the charges broadcast by TGW that we are trying to imitate their transmissions. First of all, we're just too busy to be doing that. Secondly, we would never imitate a station so discredited as TGW.

122 Attention everyone. The Guatemalan government accuses Honduras of permitting us to operate on its territory. We challenge the government to use its enormous espionage network in that country, and the communist party of that country to which it provides vast financial support, to locate us there and then prove it before an international news conference. [Goes on to 'prove' how false these charges are.] Radio Liberation is too high to be reached by the spittle of the reptiles!

160 Attention, everyone. Attention electricians, radio operators, telegraphers! Collaborate with the liberation movement by cutting telegraph and telephone cables. You will run no risk, because as you know, these cables carry no current. Cutting these cables is the call of the moment! [Exhorts people to carry out this patriotic act.]

185 Attention national army troops engaged with the liberation army troops! Surrender immediately. Those who do so will be respected and freed immediately, and those who join our forces will have the gratitude of the country. We address this message especially to Zone L3, in Sector D4. You are surrounded! You've been our nemesis! If you don't surrender immediately, you will suffer the consequences.

216 TGW is charging that we imitated one of their broadcasts, but that the government has everything under control. The truth is, they are panicking. If they have everything under control why don't they say anything about our air action over the capital this morning, why don't they admit they are just about out of fuel, that the Zacapa bridge exists no more, that hundreds of their soldiers have deserted... [etc., etc. ]? Our pilots returned this morning reporting no resistance to their flight over the capital, and no troops in the garrisons. The conclusion is simple: the city has been abandoned by the army. [Goes into a long harangue against the government, and the signs of panic they are showing.]

206 And now the news from Radio Liberation, news bulletins published all over the world, which the people of Guatemala are not allowed to read or hear because of the traitorous communist government's censorship.

-- New York: The Guatemalan army is restricted to quarters, and at least three of its pilots have deserted and are with their families in the Salvadoran embassy, which is full of refugees.

-- Miami: The Los Angeles newspaper has editorialized that the U.S. should support the liberation forces in Guatemala. [Announcer reads the editorial.]
- Tegucigalpa: The Honduran government has denied charges that Costa Ricans resident in Tegucigalpa are spearheading the Guatemalan liberation movement, saying that this movement is comprised entirely of anti-Communist Guatemalans.

Attention Brigade 48. Attention Brigade 48. It has been decided to attack Position L-40 tomorrow at 10,000. Proceed in accordance with Valentino.

034 Attention. People of Guatemala. The Liberation Army marches forward, to the tune of Los Trinqueteros, which we will play now. [Plays Los Trinqueteros.]

088 Attention, Guatemala. We have received information, from a former member of the National Army who has come over to our side, about the death of a young girl that the government attributed to our airplanes. The truth is that the poor girl was actually killed by bullets fired by the Guatemalan Civil, which was in pursuit of a group of anti-Communists. One more crime by the traitors. But the score will be evened.

123 University students! University youth have the obligation to fight against the traitors. Students of the University of San Carlos have always responded to national emergencies, and we are confident they will do so again. [Goes on to exhort university students to rally to arms.]

153 [Repeats the call to Brigade 48, per Counter 006 above.]

169 Attention People and Army. It is known for a fact that the communists have distributed arms and weapons to peasants and the popular militias, given them liquor until they are drunk, and then incited them to commit violent acts against the civilian population, focusing on anyone who is not in full agreement with the new regime. We alert the army to these events. [Goes on to exhort the army to respond to this threat and not to allow the government to do these things.]

204 The liberation army has received statements of support from free people all over the hemisphere. These are honest pledges of support, not the phony ones the government likes to propagate.

226 The liberation army does not use mercenaries, because the population of Guatemala is Anti-Communist. The Anti-Communist demonstration of 23 March featured 80,000 people in the capital, and thousands more in the interior. Viva free Guatemala! Viva Castillo Armas!

259 [Repeats call to Brigade 48, per Counter 153 above.]

278 Attention Guatemalans! Here are more names to include on the black list of traitors to the country. Angela Porres Alfaro, in Market No. 1; Gonzalo Anrune Guzman, Sindicato Avance Caminero; Antonio F. Sandoval, P., School of Agriculture, Jorge Enrique Oliva. The people will be judged by special tribunals to be set up, so they can be given exemplary punishment for high treason. [Plays the Acusamos de Alfar Treicion introduction.]

331 The Republic of El Salvador today inaugurates the great hydroelectric dam on the Lempa River, giving a fine example of what a people can accomplish when it wants to work. An excellent example for our "revolutionaries."

348 Attention all foreign correspondents. Radio Liberation will be providing accurate reports so they can be retranslated around the world.

364 [Final message to Brigade 48, per Counter 259 above.]

380 Sign Off (variant). We invite everyone to listen to us again at 10:00 PM on 3420 kca. Viva free Guatemala! Viva Castillo Armas!
007 (Anthem) Attention Guatemala. Radio Liberation, the clandestine station of the liberation movement, on the air again.

036 Attention eastern Guatemala. Attention drivers of vehicles in eastern Guatemala. Listen carefully to what might save your life. Our sabotage squads, for the purpose of destroying the military vehicles of the Arbenz loyalists and of the popular militias, have planted high-powered mines in practically all roads leading from the capital to Zacsapa. If you must travel these roads, go very slowly. You won’t be able to avoid the mines, but you may cause the major impact to hit the front wheels rather than the driver’s area.

069 Attention Guatemala. A few days ago we reported the departure from Guatemala of Arbenz’s mother and two sons, who were taken to Mexico City in an army plane, escorted by two fighter-trainers. We have been informed by one of our intelligence agents who was present to see the lady off that Arbenz himself had his bags with him and was preparing to board. He was stopped from doing so by communist leaders present, including Fortuny, Guerra Borjas, Diaz Rozotto and Charraud MacDonald. This has led to rumors that Arbenz is under the complete control of the communist chiefs. Further, Arbenz’ wife left the country today on a military plane to El Salvador with a great deal of luggage. Arbenz, hostage to the communists, might manage to evade his captors any day now and also flee. All his money is abroad. And what about his bragging about dying with his boots on?

140 Hello press and radio reporters, hello Guatemala. The High Command has decided to reveal the names of some of the towns currently under its control, towns that are cooperating fully with the liberation forces. These are Jocotán, Morales, Carmelita, Quebradas, York, Bananera, Olona, La Carmelita, Ixoxo, Lodochita, Tenaiquitos, Rabans, Esquipulas, Champeo, Quiriquina, Santo Tomás, Eleisor, Guayan and Puerto Barrios. There is still resistance from some small groups in Puerto Barrios, but this will not last long because the communists cannot supply them. And in Guiana, troops sent to combat our forces, joined them instead, to cries of Vive Guatamala! Vive Castillo Areias! Reinforcements were sent, and our forces are currently bombarding them heavily as a result of their not having responded to our offer to join us. Today before 1900 hours, another offer was made to them, the results of which we will give you tomorrow.

180 What the Arbenz-Communist Regime Doesn’t Publish. [Reads a long editorial from the Mexico newspaper Ultima Noticia de Escobedo, dated 14 June, criticizing Toriello for making so much of a telegram sent by Lazaro Cardenas on 29 May. The editorial considers Toriello presumptuous for comparing Guatemala’s current actions to those of Cardenas when the latter nationalized the Mexican oil industry. For one thing, it says, Cardenas presided over a country with internal peace and no external conflicts, and he had the full support of the people when he took that action. This is hardly the case in Toriello’s country.]

279 Attention, reporters and people. The High Command has decided.... [repeats 140 above.]

312 TGGA has called a meeting for 1600 hours tomorrow of several news organs to discuss the current situation. Just take a look at the list of those invited - every one of them a member of or closely associated with the communist party. Don’t be fooled by this attempt to organize the communist propaganda machinery to make the most of a lost cause.

338 Attention, Guatemala. The government continues its slanderous campaign born of desperation. Now they say our planes this morning shot up an evangelical mission in Guadalupe, and a north American barely escaped death. The people know our symbols are God, Fatherland and Liberty, and that we would prefer to die before attacking one of these symbols. This charge by the communists is ridiculous, and can no longer fool the people. We have very specific targets that we will take out one by one — Matamoros, the Honor Guard, the Presidential General Staff, the National Palace, Presidential Palace, the Command of the Armed Forces, etc. etc.

(Cont’d.)
Despite the government's claims that its complaint to the Security Council of the UN had been accepted, UN radio today reported that this is absolutely false, since the motion had been rejected by a vote of 10 to 1, so that it would pass to the OAS, the appropriate forum for such matters. The fact that the Soviet Union was the only member to support Yorick's complaint against Honduras and Nicaragua has led many Latin American delegates to the conclusion that Guatemala has become a Kremlin satellite.

Athenbor, eastern Guatemala. [Repeats 035 above.]

Radio Liberation now leaves the airwaves. We will return tomorrow at 0900 hours on 6360 kca.
Atteintion Guatemala. Radio Liberation, clandestine station of the great liberation movement, transmitting from operations headquarters at a secret place in the republic, on the az.

Atteintion free world. The following news item was obtained from a short wave broadcast from Honduras. All Honduran stations are making the following announcement. The tottering communist government of Jacobo Arbenz, in the desperation caused by its imminent fall, is sending mercenary planes piloted by European communists to bomb border towns in Honduras. Another communist trick to provoke international incidents.

Atteintion Guatemala. Attention Army. We have confirmation from our intelligence services that Col. Carlos Enrique Diaz and 17 other officers have been arrested and are being held at the Palace of Honor, and that Col. Carlos Aldana Saldivar is also being held at the military hospital. Nevertheless, the Arbenz regime is continuing to distribute messages signed by Diaz and Aldana in the name of the General Staff if any of you doubt this report, have you ever seen either of these officers recently? This is further proof of how the Arbenz regime is replacing the army with the popular militias consisting of hundreds of ignorant and drunken peasants, irresponsibly readied to massacre the civilian anti-Communist population, which is 100% of Guatemala. Are you going to allow this to happen?

Hello, Brigade 62. Final details for Operation Magda are ready. Carry out the assault per instructions already received by your radio operator. You will have strong air support. Success is assured. Good luck.

The battle is won from the start. [Explanation of why this is inevitable given that Arbenz government fights for atheistic communism, and the opposition fights for the Cross and the Fatherland. The Devil never beat God.]

This is Radio Liberation. [Refrain 2.]

Flash notice! According to news received over our radio, the first free government of America has recognized the first government of liberation of Guatemala, has recognized Col. Carlos Castillo Armas as president of Guatemala. Ladies and gentlemen, Cuba has recognized the triumph of the liberation.

What's Happening in Guatemala?
Atteintion eastern sector of the country. Urgent bulletin from the High Command. Any motorized vehicle operating in the eastern sector of the country will be considered a military target and will be destroyed, since the regime is trying to transport arms via these means. Any citizen who for whatever reason cannot abide by this warning, should use only private vehicles and go very slowly, since our sabotage teams have planted mines in those highways.

For obvious reasons we cannot divulge the exact location and activities of our forces, nor cite all the places that have been liberated, nor all those who have joined our ranks. We will do that when the High Command considers it advisable. Meanwhile, be one of those who has come over to fight for freedom, and be on the list of those who helped save the country from communism. Vive Castillo Armas. [Refrain 1] and Refrain 2.]

Atteintion Guatemala. We have information that TGW, acting on orders from the communist party, will attempt to imitate a Radio Liberation broadcast in order to confuse the general population. You know our voices, we only have three Guatemalan announcers. Radio Liberation does not depart from its broadcasting schedule and frequencies. After this program, we will broadcast no more tonight. Radio Liberation cannot be mistaken - its music, its friendly voices, its frequencies. Radio Liberation will return to the air tomorrow at 1:00 PM sharp. Any other broadcast you hear before that using our name is not us.

And now, ladies and gentlemen, we present the song, the hymn, heard across the country - Los Trinqueras. [Plays song.]

200
Attention Guatemalans, radio stations of the continent, reporters: Radio Liberation has an important message that we will read in a moment. It is of great importance for the United Nations.

Attention reporters, attention radio commentators, please pay attention to the following message and ensure it arrives at the UN. It is a message from Col. Castillo Armas' high command: As we do not yet have a delegate before your organization, and because we know the lies put out by the current regime probably reach you, we want to provide you the truth on several issues:

first, they say we are foreign-inspired, and therefore represent an international problem. The truth is that our movement is purely Guatemalan, inspired only by the people.

second, they say we are mercenaries. The truth is we are purely Guatemalan.

third, they say our air force has committed atrocities. It's true that we are now on the attack, but until the 21st of this month we dropped only leaflets of truth.

fourth, the regime is so desperate it is even striking out at friendly bordering countries. We want you to know we are Guatemalans fighting for Guatemala.

Radio Liberation leaves the air. Back at 1:00 PM tomorrow. Anything you hear before that is not us.

CASSETTE #289

005 [Anthem.] Radio Liberation on the air, with a 30-minute report on the progress being made by the great Liberation Movement.

028 Attention, reporters, attention, people. The High Command has decided... [repeats Cassette 291-140 report on liberated towns, states will provide results of yesterday’s offer to the enemy forces at Guatam “later on.”]

058 Radio Liberation station identification. [6380 kcs.]

073 Attention Guatemala. The government’s mercenaries are about to provoke an incident with a sister nation. The ignorance of their European pilots of the local terrain led to yesterday’s attack on Copan, Honduras. They wanted to attack our headquarters at Comitan, but attacked Honduras by mistake. We intend to knock out the government’s air force so this kind of incident will not be repeated.

107 Attention Guatemala. [Repeats 073 above.]

175 Attention Guatemala. Today is a day of great joy. The raids, taking advantage of our desire to avoid shedding blood wherever possible, have turned on the anti-Communists and their families, assassinating great numbers of people in the capital and the provinces. Today, with the realization that the people are paying the price for our passive policies, we announce the Liberation Army’s great offensive by land and by air. Guatemala, June 25, 1954.

202 Attention National Army, attention people. It is known for a fact that the communist party has given vast amounts of arms to the popular militias, comprised of peasants, given them liquor until they are drunk, and then incited them to acts of violence against the civilian population, targeting them on anyone who is not in full accord with the new regime. The Army must put a stop to this practice before it is too late.

241 Units of our air force left this morning to attack communist military targets. We will inform on the results of these missions when they return.

249 [Repeats 175 above.]

290 Attention Guatemala. Arbenz knows he is to be defeated. But he is so determined to stay in power that he is prepared to unleash a civil or international war and bath the country in blood. This communist massacre must be stopped at all costs. [Plays the battle theme from Los Alemanes de Au Trujillo.]

328 This is Radio Liberation, transmitting on 6380 kcs and 3420 kcs, with four daily broadcasts at 0800, 1200, 1700 and 2200, 6380 kcs for our three daytime broadcasts, and 3420 kcs for the nighttime broadcast. [Anthem. Back at 1200 hours, Good day.]

026 [Anthem.] [Station identification.]

039 Attention Guatemala. [Repeats Cassette #258-140 message, adding Vado Hondo to the list of towns under control.] There is still resistance at Puerto Barrios, but it is expected to collapse soon. The government's reinforcements at Guatalk have been routed and are now in flight pursued by our forces.

055 [Station identification.] [Refrain 2.]

077 Across the battlefront, only one voice is heard! The Hymn of the Liberation Army! Los Triunqueteros! [Refrain Los Triunqueteros.] [Station identification.]

130 Demurcianos. News comes from Mexico that the Popular Anti-Communist Front has reported that the Arcez regime, through its Cuban agents Eufemio Fernandez and Aureliano Sanchez Arez, is trying to buy arms to equip the Guatemalan communist party's shock troops. The Secretary of Defense has ordered a complete investigation. (Gives background on the two Cubans.) These two are typical of the mercenaries at the service of the Arcez regime, typical of the foreign thugs who torture our citizens in Cruz-Wer's dungeons.

182 Attention Guatemala. Arcez' mercenaries are about to provoke international incidents with sister nations. [No further details.] [Station identification.]

199 Attention Guatemala. The great offensive has begun.

Our air units this morning attacked important communist targets, destroying fuel storage sites in the capital.

The army of liberation is advancing to the rail and highway center of Zacapa in three columns -- the left, commanded by Col. Ernesto Nider Taiman [ph.], encountering no resistance; the right, commanded by Col. Jorge Barrios Solares; the south, commanded by Col. Guillermo Flores Avendano, supported by the Division under the command of Colonel Miguel Mendoza.

The air force, commanded by Colonel Rodolfo Mendoza, has begun its offensive, spreading panic and disorder among the enemy.

Colonel Castillo Armas, Commander of the Liberation Army, is heading with his general staff to the front to take personal command of the final assault on the "key to the country," the city of Zacapa.

Meanwhile, brigades of the Liberation Army have begun operations in the western zone, taking control of the town of Nuevo Progresso.

Anti-Communist forces have begun to surround the capital city, cutting electric and telephone cables, and bringing down railway bridges. Sabotage teams are effectively isolating military installations so they cannot help each other.

In Puerto Barrios the action is diminishing; resistance is weak, and the forces of Colonel Gustavo Torres Verganza have been ordered to surround the enemy forces, compelling them to surrender for total lack of provisions. Total control of the situation is expected momentarily.

In Guatalk, government troops are withdrawing under pressure from our troops and from their former companions, today members of the Maya Alliance Brigade.

Great numbers of volunteers are joining our forces in all areas, forming real legions.

Guatemalans! The Liberation Army marchs triumphantly throughout the country! Viva Guatalk! Viva Castillo Armas! [Follows with an emotional description of the liberation movement's rescue of the country.]

272 [Ballad theme from Los Acusados de Alta Trasición.]

313 Attention National Army. Attention officers and troops. Attention families of members of the National Army. There is still time. You can still join the Liberation Movement. Very soon the army will know what happened to its forces in Zacapa. Very soon you will know it, and you still

(cont'd.)
have time to avoid another such occurrence. When you hear what happened in Zacapa, think about it, and begin to fight for Guatemala with the Liberation Army headed by Colonel Carlos Castro Armas. There is still time.

335 Flash! Flash! We have reports from our intelligence service that Col. Carlos E. Diaz and seventeen other senior officers are being detained at the Honor Guard. They are all prisoners of the communist government, even though messages are still being sent around the country in the Diaz' name. Col. Carlos Aldana Sandoval is also being held prisoner at the military hospital. The Liberation Army will soon liberate all these officers who tried to fulfill their duty to their country.

354 Attention Guatemala. In its final desperate throw, the crumbling Arbenz regime is preparing grave international incidents. We are sounding the alert. [No further details.]

373 Attention Radio Liberation listenership across the country. In consideration that important military developments are about to take place, Radio Liberation will not come up for its usual 1700 broadcast. Radio Liberation will next visit your homes at 2200 hours. [Anthem.]

018 Attention Guatemala! Important Notice! Hello, Guatemala! Our intelligence services have informed us that TGW and the Arbenz government, are trying to imitate Radio Liberation broadcasts. Be alert! If you don’t hear my voice, and the other announcers well known to you, it is not Radio Liberation. They will try to air their program on our frequency or very close to it. Listen closely to the voices. [This is all repeated several times over in different ways.]

Remember our frequencies are 6360 kcs and 3420 kcs, and our broadcast times are 9:00AM, 12:00PM, 5:00PM, and 10:00PM. We have only three announcers and you know our voices well.

162 We are operating from Liberation Army Headquarters [no frequency given]. [Music]

CASSETTE #299

067 Sign On II. [Station Identification.] refrain 2 [no frequency].

068 Attention Guatemala. Attention radio operators, electricians, telegraphers. Cooperate with the liberation movement, severing telegraph and telephone cables. There is no danger because these cables carry no current. Cutting these cables is the call of the moment. The communist government must be isolated from the rest of the country.

087 Attention Guatemalan people and free peoples of the world. Our troops had contact yesterday at 2000 hours with a brigade of peasants and easily disarmed it. Our troops recovered arms which have been distributed to the peasants by the communist leader of Zacapa, Dr. Solva, a Nicaraguan citizen. The arms, ten 7.65mm rifles with 50 rounds each, bear the hammer and sickle emblem, and were manufactured in Czechoslovakia. Even though the army has declared it does not need the popular militias, communist leaders do what they want in order to shed as much blood as possible behind the army's back.

111 Attention Civil Guard and Judicial Guards. We know from our intelligence service that many of you are anti-Communist and Christian. You can be of great help to the liberation forces because you are well-armed. As a minimum, you can abandon the communist ranks when you are sent on any kind of mission, or tell the anti-Communists of any action planned against them. Those who direct you today to commit acts of barbarity against the people are the same ones who chased out at gunpoint your predecessors in the service. This is the hour of liberty. You can help. Vive libre Guatemala!

129 Attention. We announce now that very soon the national army will be unable to move anything, including, troops, food, weapons or vehicles, because all fuel deposits in the republic have been destroyed by our air force and sabotage teams. Further, highways and rail lines have been cut at vital points. Just yesterday, a military rail convoy was destroyed near Zacapa.

148 Victory is ours because we defend the just, the divine, the human. [Carries on in lofty terms.] Victory is ours, and God is our guide.

178 Attention journalist and radio stations of the continent. We have an important notice that we will read in a few moments, very important for the United Nations.

187 Attention reporters, radio commentators, governments of free nations, please take note of the following message so that it arrives at the UN. The message originates at the High Command of the Liberation Army. Please present it to the UN the name of free Guatemala. [Reads same message as Cassette #294-333. Includes phrase, "It is true that in the last two days we have begun our offensive."]

(Cont'd.)
People and Army of Guatemala. Editorial starting with the traitors' assassination of Francisco Javier Arana and their betrayal of the army that didn't know what was happening. Today the traitors continue their lies about our movement. But we are spreading the truth, so no one can say tomorrow that he didn't know what was happening. We are Guatemalans struggling to liberate Guatemala. Don't believe TGW when it says we have been defeated and are fleeing. We are fighting, haven't taken one step backwards, and we're gaining ground. We're fighting for you and the country. Join us. Rise up! Fight!

Another member of the National Army who has joined our ranks has confirmed the reports that Col. Carlos Enrique Diaz and Col. Carlos Aldana Sandoval and 17 other officers are prisoners of the reds. This is all part of the plot to replace the army with Castillo Flores' popular militias, groups which, under orders from the international communist movement, are already committing acts of terrorism throughout the country. We appeal again to the members of the army to join the forces of liberation. Three more pilots of the air force have sought refuge in the Salvadoran embassy, and will soon be in our ranks. The Liberation Army opens its arms to the National Army.

Attention Guatemalans. Our next transmissions will be at 2000 and 2300 on 3420 kcs. Any other broadcast that does not feature the voices of your friendly announcers on the known frequencies and at the known times is apocryphal. Black at 2000 and 2300 on 3420 kcs. Good afternoon.

[Anthem.]
Radio Liberation thanks all the free stations of the world that have offered their support to the movement. The movement does not solicit such expressions because it knows that it fights on the side of justice and that the new, glorious day is near. The army of liberation needs no mercenaries, because the Republic is Anti-Communist. Didn't 80,000 people march for the cause of anticommunism on March 13, 1932? We don't need mercenaries because the people march with us. Vive free Guatemala! Vive Carlos Castillo Armas. Guatemala has suffered the darkest tyranny of its history, betrayed by Arbenz and his gang. Therefore... [Plays boilerplate theme of Los Acusamos de Ala Traidor].

Flash! We have received word just seconds ago from the front that great numbers of government troops at the front of Zacapa and Chiquimula have joined our forces. We cannot provide details, but we can assert that our army has thinned in recent days. A good example, Guatemalan army!

Attention Guatemalan army. Attention officers and soldiers in the Zacapa-Chiquimula region. We are going to respect ambulances and trucks marked with the traditional red cross that are evacuating the wounded. Our air force today permitted the free transit of these vehicles. But don't try to fool us. If we find out you are using these vehicles to transport troops, we will have no other course than to fire on them. Having heard Taw's request for blood donations for the wounded, we will also permit vehicles bearing blood to pass. However, we respectfully must report that hospitals in the area have yet to receive one drop of blood from the workers and peasants.

Attention army officers and air force pilots. We call on you to join our Liberation Army, following the example of the many who have already done so, and who have sought asylum. The Salvadoran embassy has given asylum to three more air force pilots and has said it will welcome any others. The Mexican Guatemalan Ministry has said it will provide asylum to all who request it.

The combat hymn of the Liberation Army is... [Plays Los Triqueseros.]

Radio Liberation operates on 6380 kcs and 3240 kcs with three daily transmissions, at 1300 hours (6380 kcs), and 2000 and 2300 hours (3240 kcs). Our next broadcast today will be at 2300 hours. However, at the conclusion of these broadcasts we will replay recordings of them in the intervals so everyone can hear them. Pass this word on.

Attention! Last minute Flash! Last minute Flash! [Repeats above 096 message about desertions at the front.]

Attention army officers and soldiers in Zacapa-Chiquimula zone. [Repeats above 146 message about respecting ambulances.]

Attention, our next broadcast will be at 2300 hours on 3420 kcs.

Another army officer who has joined our ranks has confirmed... [Repeats message of Cassette #296-537 on imprisonment of Col. Carlos E. Diaz et al.]

We know that Radio Nacional, an instructions of Arbenz' red government, will try to broadcast transmissions imitating Radio Liberation. If you don't recognize the voices, and our particular broadcasting style, you're not listening to Radio Liberation.

Anthem. We will be back on 3420 kcs tonight at 2300. [Repeats broadcast schedule per 241 above.] Good night.

009  Attention listeners. Attention listeners around the continent, we have a sensational news item
that we will be giving in a few minutes. Attention journalists of the continent! Stop your presses!

054  Here's the news item. News from the front indicates that the forces of our Liberation
Army have taken the city of Chiquimula, thanks not only to our forces, but to those of the
National Army that came over to our aid, thereby avoiding a useless shedding of blood. Chiquimula has fallen.
Our troops continue their advance to the capital. This is a memorable day! Ten years ago the Ubico
dictatorship was brought down. Today, on the eve of that great day, 25 June 1964, the Liberation
Army has captured Chiquimula as an offering to the heroes of that glorious event. 24 June 1964,
a glorious day in our history! [Anthem.] The High Command congratulates the "15 September" column
that has written such a glorious page in our history. We also open our fraternal arms to
the members of the national army who joined our victorious army.

155  [Station identification.]

169  Here's the news.

   -- TGW says the enemy air force has been carrying out operations in Chiquimula and
Zacapa, and says the government troops are preparing the final blow to eliminate the final
rebel groups. TGW congratulates the government forces for their effectiveness. An
interesting report, but how can they give the "final blow," when we have already delivered
the first one? Chiquimula has fallen!
   -- The army has reported from the capital that the enemy's resistance has been broken in
Puerto Barrios, Guatap and Chiquimula, and that the rebels are in retreat to the border
under a full offensive from army troops. The government troops launch an offensive, and we
capture the target! Chiquimula has fallen!
   -- United Nations. Guatemala claimed that rebel forces have threatened to bomb the
capital within 24 hours, and called for a Security Council meeting. Guatemala does not
have the means to repel such attacks, the government said, adding that the rebels' clandestine
radio announced the coming bombing. This acknowledgment of the
government's problems is surprising, but the red regime twists the truth. We announced a
general offensive against communist military targets, but we have never given warnings of
24 hours to the civilian population.
   -- On the contrary, the government claim says that during the 22nd and up to noon of the
23rd, more than 48 cities and towns have suffered air attacks featuring machine gunning
and 100-pound bombs. The government says it lacks the means to repel such attack,
adding that formations of P-47 airplanes have been conducting reconnaissance around the
country.
   -- The Honduran protested the bombing last Tuesday of the air base at San Pedro Coman
by Guatemalan government aircraft.
   -- United Nations. Russia requested an emergency meeting of the Security Council to
consider Guatemala's complaint. To complement this, TGW said it was very proud to
announce the support of communist China to Jacobo's government. Tell me who your
friends are and I'll tell you who you are.
   -- Mexico. TGW announced the Guatemalan government is prepared to deliver the coup
de grace to the rebels. It said the government forces are well armed and supplied. We
repeat. Chiquimula has fallen!
   -- San Salvador. The four-person UN inspection team met in that capital to enter
Guatemala. At last, people will know what is really going on in Guatemala.
   -- Central American embassies in Guatemala have granted asylum to numerous officers
of the Guatemalan army who repudiate the government. That's one way. The other is to
join ranks with the Liberation Army.
   -- For the first time the government didn't lie when it said the rebel air force is under the
command of Col. Rodolfo Mondragon.

300 Chiquimula has fallen, and the people are in arms! [Attack on the crimes and evils of the communists and the Arbenz regime, and on how patriots must respond to this threat by rising up in arms.] Chiquimula has fallen!

373 Repeats first part of 054 above. [Anthem.] Will be back tomorrow at 1300 hours on 6360 kcs. Good night. Viva free Guatemala. Viva Carlos Castillo Armas.
In its Bulletin No. 8 yesterday, the Army noted that for the first time Guatemalan pilots were attacking their brothers, forgetting to back the "mercenary" word so in vogue these days. But this oversight was remedied [? - chavezmosto] today, when the phrase was added, "and worse still, assisted by mercenary pilots." Chameleons. [?]

Castillo Amoros, Guatemala delegate to the United Nations, has sent a protest to Guatemala, threatening to leave his position because of the arrest of Carlos Enrique Díaz, with whom he has a family and friendship relationship.

Attention Colonel Juan Bolande. We know you are a good man and good Christian. We know you are Anti-Communist, and feel to understand your defense of the communist and anti-patriotic Arbenz government. Your place is with us, Colonel Bolande. There is still time.

Communist organizations around the world, following their Kremlin masters, are sending solidarity messages to the puppet Arbenz regime. Similar messages from communists in the Americas, carbon copies of the European versions, also arrive. A clear demonstration of worldwide communist organization. And to think that in this continent there are blind people who just don’t want to see.

The international thugs of the Caribbean Legion are about to increase their ranks. These thugs are about to arrive to unleash a new wave of crime. We have reliable reports that the Aviación C-47 aircraft, No. 1164, letters "CASA", is in Mexico ready to leave any moment for Guatemala bearing the lies of Ildefonso Fernández, Aureliano Sánchez Arango and the Nicaraguan communist Manuel Pinto Chávez, who have been contracted by Arbenz to help him control the situation here. Be careful, Guatemalans, the remains of the Caribbean Legion are ready to assassinate the people.

A distinguished member of the Guatemalan forum [foro guatemalteco - ?] that marches with the column led by Col. Miguel Mendoza that continues its advance at the Esquipulas front, has sent to Radio Liberation a letter containing his impressions at the beginning of the action. We’re going to read this letter so all Guatemalans can feel the same spirit that has driven our compatriots in the Liberation Movement. The letter reads: "Esquipulas, 23 June 1954....[reads full letter, purportedly from a participant in the battle of Esquipulas.]

Our army has captured Chiquimula, and is dominant in Zacapa and Guatamal. Forward, for God and Liberty! [Station Identification.]

People of Guatemala. A few days more and we will be in the capital. A few more days of sacrifice, and do not lose your faith. The taking of Chiquimula will be historic - 24 June 1954. Viva Guatemala. Viva Colonel Carlos Castillo Armas. For the first time the two forces met. This time, as in all future times, we won. Forward, Liberation Army.

Radio Liberation calling out to all members of the armed forces, army and air force, all armed persons who can join the fight against Arbenz at this crucial moment. Radio Liberation presents a special message for the members of the armed forces. This has been a day of action for us, and should be for you also.

These are the facts that led up to our actions of today. The government has betrayed our people. Arbenz has delivered himself to the communist movement and made his country just another satellite of the Soviet Union. Many of us raised our voices in protest so that the 20 October 44 revolution would not be distorted. But for that we were persecuted. From abroad we planned the way to liberate the country from the Kremlin’s puppets.

Today our army marches securely to victory. Only a few hours ago we defeated the government troops that tried to stop us at Chiquimula, Guatamal and Zacapa, now all under our control. We are now moving on the capital.

([Cont'd.)]
CASSETTE #202 (cont'd.)

The national army should not be embarrassed by this defeat. We won because we have reason on our side. We won because we are on the side of God, Fatherland and Liberty, rather than on the side of Arbenz and communism. The National Army troops, as their arms were pointed and ready to fire at their Guatemalan brothers, took a rapid decision which will bring glory to our history. They chose Liberty, God, Country. They all came over. The troops of the Honor Guard, until yesterday our enemies according to Arbenz, joined our ranks.

But unfortunately, in the capital, the army is supporting communism and helping the atheists. To all members of the armed forces in the capital: We know you're not communists, that you don't want to support communism. But Arbenz knows that he can no longer carry on his charade. Any moment now, he must declare himself dictator at the service of Marxist totalitarianism. He will order all the communist controlled unions to convert themselves into the popular militia. This popular army is ready to act. You've seen in the fields the last few weeks, ready to unleash terror on the order of its leaders. And you know, what that means. And it is for this reason that we senior officers of the Liberation Army decided to bomb military targets in the capital today. Today we bombed one target in the capital, one military target. Our main purpose was to show you that we are ready to go to any extreme to bring down Arbenz. We will annihilate communism. We will bring down the man who would destroy the army.

We call on all members of the armed forces. We call on you to save the country. Today. You should today throw out Arbenz. Throw him out of his office today, 25 June 1954. We will fight to the end all those who support this regime. Members of the armed forces: we must look at you as we look at the regime's thugs. Do not carry out your responsibility.

Residents of the capital, brothers. Today, 25 June 1954, we bombed one target in the capital. We want to protect civilians. Don't go near military installations. But we demand the removal of Arbenz. Detain the communists so they can be tried for their crimes. We will not stop until we see our Guatemala liberated.

372 You have just heard the vibrant message of Radio Liberation to all armed institutions in the republic, the National Army and the Army of Liberation, a vibrant message reflecting the views of the Guatemalan Army of Liberation.

381 Attention reporters. Stop the pressers. Radio Liberation will report tonight at 2300 hours on the great developments at the battle front. Look for us on 3420 kcau [Anthem]. Good night.
[Anthem.] [Station identification.] On this broadcast we will give the world press and the people of Guatemala an update on the current situation in Guatemala.

According to international news reports, the Arbenz regime has denied entry into Guatemala to an investigative mission of the Inter-American Peace Commission, a dependency of the OAS. Despite Soviet protests, the UN Security Council has resolved that the Guatemalan complaint should be transferred to the OAS.

Our regular programs are reproduced by tape throughout the day so all the free world will know what is going on in Guatemala.

Victory is ours, because we defend the Just, the divine, the human... [elaborates on how the opposition is on the right side of right, on God's side].

From Mexico it is reported that travelers arriving from Guatemala, including a reporter from Boston, report that the Liberation Army has achieved victory, and that more than 400 injured government troops have arrived in the capital from the fronts.

Large numbers of National Army officers and soldiers continue to join ranks with the Liberation Army. Col. Cheyto Casazola and all his troops have now joined our ranks in Morales. Casazola is now with our troops attacking Puerto Barrios. A worthy example for the soldiers of the nation.

A Reuters reporter who overflow Chiquimula today reports it is not true that liberation forces bombed civilians, but rather as did see a huge white flag flying at the military installation there. Yet TGW continues denying that Chiquimula is in our hands.

Attention, SL-4 sabotage group. Remember your instructions well. We must regretfully report the death yesterday of our companion Enrique Ramirez del Cid, who died as the result of an accident while mining a highway in the East. Careful, SL-4 saboteurs, be careful and follow instructions. [Station identification. Refrain 2.]

On all fronts, the Liberation Army advances to the tune of Los Trinqueteros [playa Los Trinqueteros].

Reports from Puerto Barrios indicate government officers and troops there are demoralized, with their supplies and support cut off, and they fearful of coming bombing attacks by rebel aircraft. Ships appearing on the horizon lead them to believe there will now offloadings and bombardments soon.

And now the news:

— Communique #25 of Radio Liberation reports. From the early evening hours yesterday and throughout this morning we have been reporting our intention to bombard military targets in the capital city so as to avoid impeding civilians, against whom we are not fighting. Today, in the early afternoon hours, our aircraft bombed the principal military target in the suburbs of Guatemala City, the Matamoros Fortress. The fortress blew into a thousand pieces. Fires and explosions extended around the area, also destroying Santa Barbara, where the majority of the Arbenz arms were being stored. The government has not informed of the destruction of Santa Barbara, probably so as not to destroy the morale of its troops in the interior, but everyone in the vicinity knows of it.

— The Liberation Army's air force this afternoon attacked three military rail convoys, which were traveling on the few tracks remaining in the vicinity of Zacapa. The convoys were bringing war supplies from the capital and were totally destroyed. Our troops commandeered one of the trains and traveled on to Zacapa firing on government troops, spreading panic among them.

— Reports from the field this afternoon indicate that our columns advancing victoriously on the capital are encountering little resistance.
CASSETTE #263 (cont'd.)

— In a solemn ceremony today in Cihquimula, 538 civilians were sworn into the ranks of the Liberation Army. The ceremony featured the playing of Los Trinqueúnados, the song which has become the battle song on all fronts.

— One of our planes in this afternoon's action attacked the National Palace. Since the palace was not a target in the plans, the pilot later explained, "I only wanted to leave my calling card with Jacobo Arbenz, because I will visit him again very soon."

— Attention residents of the capital! As we have been repeating all day, we urge everyone who lives near military targets to abandon their homes immediately. We now repeat that warning, because another attack might be launched this very night. All civilians should stay away from military targets.

This program will be repeated throughout the morning. Our next regular program [programa normal] will be at 13:00 on 9300 kcs.

346 [Repeats Casasola Item from 115 above.]

CABSETTE #300

007 [Anthem. Station identification. 6360 kcs.]

023 Radio Liberation calling all members of the National Army. This is a special broadcast. We have a joint message from the Council of officers and senior chiefs of the Liberation Movement which are now leading our victorious to the capital after yesterday's capture of Chiquimula.

These are the facts that led up to the actions that we will be announcing in a few seconds. . . . [delivers same message as Cassette #292-205, except that this one says the bombing of a military target in the capital is imminent today the 29th of June, whereas 292-205 said it had already happened.]

This message will be repeated throughout the day. Tell everyone to listen.

222 [Anthem.] Tell everyone to listen on 6360 kcs.
The High Command informs the National Army and the populace of the necessary conditions for the restoration of peace and order [gives same conditions as Cassette #244]:

first, the Army is not our enemy and nor are the Army’s enemy. The enemy of both is communism, personified by Jacobo Árbenz, Cruz Wier, etc.

second, we appeal to all members of the army to arrest all known members and sympathizers of the communist party.

third, we appeal to senior army officers to capture Árbenz and establish an interim military junta.

fourth, the interim junta should immediately instruct should instruct all units to arrest all communists and prepare to join forces with the liberation army to restore order. These orders should apply to Civil Guard units under army control.

fifth, the interim junta will establish the hour for a cease-fire, giving all commanders at least three hours notice. Immediately thereafter, the decision to form a new government should be announced, over TGN or Radio Moraz. The Executive Committee of the Liberation Army will immediately establish contact with the interim junta.

sixth, this call is made to the army in the name of humanitarianism and before God, to thereby avoid the useless shedding of blood and the devastation of our beloved Guatemala.

seventh, until these conditions are met, the Liberation Army will continue increasing its attacks using all its human and military power to destroy communism and all those who make common cause with it.

General Headquarters, 28 June 1954.

In a solemn ceremony yesterday in Chiquimula, 538 civilians were sworn into the Army of Liberation. Our soldiers joyfully sing the strains of Los Trinqueteros. [Plays Los Trinqueteros.]

Reports from Puerto Barrios received from one of the many soldiers who have joined our movement, indicate morale is low among government forces, without provisions or communications. Ships on the horizon have them fearful of new disembarkments or bombardments.

Attention sabotage group S-4. The High Command congratulates you for the brilliant work on the radio transmitter.

One of the planes that yesterday attacked the capital attacked the National Palace... [same item as Cassette #293-293, para 5]

Flash! Flash! According to reports from our intelligence service, all governors have received orders from the Guardia Civil director, Col. Rogelio Cruz Wier, to arrest all anti-Communists who hold key positions, even if they belong to governmental parties but are known as anti-Communists from their actions of prior years. According to the orders, they should be shot as soon as the town is attacked. National Army! There is still time to save the country. Otherwise you will be victims of this reign of terror that you are defending. During tonight’s broadcasts we will read the text of Cruz Wier’s message. [This appears to be the first of the several bulletins on the purported Cruz Wier order: see Cassette #243-270 and 265-040. The sequence appears to have been 267, 295, 243.]

Comunicados #25 of Radio Liberation informs: From the first hours of the night before last, we were warning about the bombing we carry out on a military target in the capital, a warning that we repeated all yesterday morning. Accordingly, early yesterday afternoon, our planes bombed the Matamoros Fortress that was destroyed. [Continues with text as given Cassette #293-253.]
